echoing events questions the perpetuation actualization and canonization of national narratives in english and dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity the longitudinal study begins in the 1920s when the league of nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries the analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies this innovative and original study thus investigates from a new angle the resistance of national narratives to change

as teachers we often tend to expect other countries to teach chemistry in much the same way as we do but educational systems differ widely at bielefeld university we started a project to analyse the approach to chemical education in different countries from all over the world teaching chemistry around the world 25 countries have participated in the project the resulting country studies are presented in this book this book may be seen as a contribution to make the structure of chemistry teaching in numerous countries more transparent and to facilitate communication between these countries especially in the case of the school subject chemistry which is very unpopular on the one hand and occupies an exceptional position on the other hand due to its relevance to jobs and everyday life and most notably due to its importance for innovation capacity and problem solving we have to learn from each others educational systems
