the intuition or evidence of the title is a theme which runs through the book prior to national assessment teachers judgements about pupils were largely intuitive national assessment has brought about changes in some teachers practice resulting in assessments now being based more firmly on evidence other teachers however still prefer to assess intuitively the changes in government policy and the demands for testing and publication to raise standard also seem to be based on intuition rather than evidence however by the end of a three year study the authors evidence shows that a number of headteachers felt that standards of teaching had improved but not in the simplistic way envisaged by the government

this book is about the key role which the teaching profession has to play in school effectiveness and improvement the contributors argue that for genuine school improvement strategies and approaches must evolve from teachers themselves
