financial literacy and financial education are not new topics even though interest in these topics among policymakers financial authorities and academics continues to grow the routledge handbook of financial literacy provides a comprehensive reference work that addresses both research perspectives and practical applications to financial education this is the first volume to summarize the milestones of research in financial literacy from multiple perspectives to offer an overview the book is organized into six parts the first three parts provide a conceptual framework which discusses what financial literacy is how it should be measured and explains why it represents a relevant topic and effective tool in enhancing decision making among consumers as well as consumer protection strategies part iv addresses the connection between financial education and financial literacy with chapters about financial education in school settings as well as for adults this part includes an analysis of the role of fintech and the use of gamification in financial education part v is a collection of contributions that analyze financial literacy and financial education around the world with a focus on geographical areas including the u s south america western europe eastern europe asia and africa this part also considers how financial

literacy should be addressed in the case of islamic finance the concluding part of the book examines how financial literacy is related to other possible approaches to consumer finance and consumer protection addressing the relationships between financial literacy and behavioral economics financial well being and financial inclusion this volume is an indispensable reference for scholars who are new to the topic including undergraduate and graduate students and for experienced researchers who wish to enrich their knowledge policymakers seeking a broader understanding and an international perspective and practitioners who seek knowledge of best practices as well as innovative approaches

books on financial literacy tend to focus mainly on saving spending borrowing and investing however my book will take a step back and start with a basic knowledge of the subjects that comprise financial literacy economics finance risk management accounting insurance taxation and estate planning after such skills as financial goal setting budgeting saving spending borrowing and investing will then be explored such a logical approach is crucial to becoming financially literate enhance wealth building avoid stress and achieve financial well being and success there are two chapters on interpreting annual reports financial statements and the stock market these are followed by a chapter on sustainability financial literacy which no book on financial literacy has covered so far and one on how to teach children financial literacy from an early age also there are no fancy theories intimidating mathematical formulae or equations to dazzle you rather you will find just plain simple language to break down the most complex with easy to understand examples to explain things the book is divided into five broad based chapters containing 30 sections and two appendices exploring key facets of financial literacy providing practical insights real examples actionable strategies and a roadmap for financial success targetting both children and adults there are 50 certifications in finance and related areas 28 fraud schemes 150 key financial concepts and directions to sourcing 21 reports 32 books and 37 websites

this book explores the issue of consumer financial education responding to increased interest in and calls to improve peoples financial literacy skills and abilities to understand and manage their money new conceptual frameworks introduced in the book offer

academic audiences an innovative way of thinking about the project on financial literacy education using the concepts of edu regulation and financial knowledge democratisation to analyse the financial education project in the uk the book exposes serious and often ignored limitations to using information and education as tools for consumer protection it challenges the mainstream representation of financial literacy education as a viable solution to consumer financial exclusion and poverty instead it argues that the project on financial literacy education fails to acknowledge important dependences between consumer financial behaviour and the socio economic political and cultural context within which consumers live finally it reveals how these international and national calls for ever greater financial education oversimplify and underestimate the complexity of consumer financial decision making in our modern times
