fleeing the nazis theodor w adorno lived in new york city as a refugee from 1938 until 1941 during these years he was intensively involved in a study of how the recently developed techniques for the nation wide transmission of music over radio were transforming the perception of music itself this broad ranging radio research was conceived as nothing less than an investigation partly empirical of walter benjamin s speculative claims for the emancipatory potential of art in the

age of its mechanical reproduction the results of Adorno's project set him decisively at odds with Benjamin's theses and at the same time became the body of thinking that formed the basis for Adorno's own aesthetics in his philosophy of new music. Current of Music is the title that Adorno himself gave to this research project for complex reasons. However, Adorno was not able to bring the several thousands of pages of this massive study, most of it written in English, to a final form prior to leaving New York for California where he would immediately begin work with Max Horkheimer on the Dialectic of Enlightenment. Robert Hullot-Kentor, the distinguished Adorno scholar, reconstructed Adorno's project for the Adorno Archive in Germany and provides a lengthy and informative introduction to the fragmentary texts collected in this volume. Current of Music will be widely discussed for the light it throws on the development of Adorno's thought on his complex relationship with Walter Benjamin, but most of all for the important perspectives it provides on questions of popular culture, the music of industrial entertainment, the history of radio, and the social dimensions of the reproduction of art.

As America's geography and societal demands expanded, the topics in the *Etude* magazine, first published in 1883, took on such important issues as women in music, immigration, transportation, Native American and African American composers, and their music. World War I and II, public schools, new technologies, sound recordings, radio, and television, and modern music, jazz, gospel, blues, and early 20th-century composers, in addition to regular book reviews, teaching advice, interviews, biographies, and advertisements, though a valued source particularly for private music teachers, with the de-emphasis on the professional elite and the decline in salon music, the magazine ceased publication in 1957. This index to the articles in the *Etude* serves as a companion to E. Douglas Bomberger's 2004 publication on the music in the *Etude*, published a little over fifty years after the final issue reached the public. This index chronicles vocal and instrumental technique, composer biographies, position openings, department store orchestras, the design of a successful music studio, how to play an accordion, recital programs in music schools, and much more. The index is a valuable tool for research, particularly in the music culture of America in the late nineteenth and early twentieth centuries, with titles of these articles available the

doors are now open for further research in the years to come the index is published in two parts and sold as a set for 250 00
