reprint of the original first published in 1874 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost

this is the first history of dictionaries of english for foreign learners from their origins in japan and east asa in the 1920s to the computerized compilations of the present monolingual dictionaries for foreign speakers were a revolutionary development at their outset and now represent a coming together of intellectual technological and commercial forces almost unequalled in book publishing as the author shows the early history

of efl dictionaries was research driven arising directly from research in linguistic theory and language pedagogy now it is user driven determined by what users require or are thought to require the pioneering dictionaries were the work of individuals current dictionaries are the products of huge databases manipulated by sophisticated processing as publishers strive to share an immense and ever growing global market the book has both a thematic and a chronological structure three chapters describe the historical sequence over a period of some sixty years these alternate with chapters dealing with phraseology computers and corpus linguistics and research into dictionary users and uses three subjects central to the development of elt dictionaries over the last thirty years anthony cowie examines the way in which availability of massive computing power has transformed the recording and analysis of current speech and shows how the growth of research into the users and uses of dictionaries has led to developments both in elt lexicography and method this readable and non technical account is directed at professionals in applied linguistics and english language teaching and at lexicographers but it will fascinate everyone concerned with the analysis of english and faced with the challenge of recording the subtleties of its grammar and meaning

the compiler of this dictionary of word and phrase origins and history was not only a linguist and a philologist but also a man of culture and wit when he turned his attention therefore to the creation of an etymological dictionary for both specialists and non specialists the result was easily the finest such work ever prepared weekley s dictionary is a work of thorough scholarship it contains one of the largest lists of words and phrases to be found in any singly etymological dictionary and considerably more material than in the standard concise edition with fuller quotes and historical discussions included are most of the more common words used in english as well as slang archaic words such formulas as i o u made up words such as carroll s jabberwock words coined from proper nouns and so on in each case roots in anglo saxon old norse greek or latin old and modern french anglo indian etc are identified in hundreds of cases especially odd or amusing listings earliest known usage is mentioned and sense is indicated in quotations from dickens shakespeare chaucer piers plowman defoe o henry spenser byron kipling and so on and from contemporary newspapers translations of the bible and dozens of foreign language authors

examines how language works accounting for its nature its use its study and its history two comprehensive indexes of topics and technical terms and names carefully illustrated to explain key points in the text this rich repository of information on all aspects of language is a must for all libraries in higher education schools and larger public libraries library review each article has an excellent bibliography in addition there are comprehensive indexes of topics and technical terms and names highly recommended for all college and general public libraries choice this important book is in many ways a state of the art survey of current conceptions of and approaches to language with generous references to more detailed sources each chapter has a good bibliography language international a comprehensive guide with very thorough bibliographies

collinge s encyclopedia is recommended to academic libraries reference reviews the bibliographies are an invaluable aid the editor is to be congratulated for having done an excellent job there are virtually no areas of language and linguistics that do not get a look in somewhere and there is good signposting in the text itself nigel vincent times higher education supplement
