cultural anthropology a contemporary perspective third edition is a sophisticated synthesis of social and cultural anthropology keesing was concerned with the political and ethical implications of anthropological fieldwork and was sensitive to the global conditions of inequality caused by the spread of capitalist relations of production thus his book is more political than other introductory texts in the field keesing was also committed to the belief that

students should not merely memorize terms and theories but should also be challenged to ponder the deep questions raised by human diversity. Roger Keesing's untimely death in 1992 necessitated that a co-author execute his planned revision. Dr. Andrew Strathern was chosen because like Keesing his training is in the British social anthropological tradition, his fieldwork has concentrated on the Pacific, and his recent teaching experience has acquainted him with American cultural anthropology. In this revision, Dr. Strathern preserved Keesing's vision, arguments, and the ethnographies presented as illustrations of Keesing's theories while also examining each sentence to determine whether its assertions needed to be updated, modified, or abandoned. Small changes made in this way incorporated a larger aim of updating and recasting the book to better fit and reflect a world 20 years since publication of the first edition.

Cultural Anthropology: A Perspective on the Human Condition is an introductory cultural anthropology text that encourages students to think critically about culture and to view the world in new ways. The authors incorporate cutting edge theory into solid coverage of traditional topics and pay special attention to issues of power and inequality in the contemporary world, including gender inequalities, racism, ethnic discrimination, nationalism, caste, and class. Covering the material in fourteen chapters, Cultural Anthropology fits well into a semester-long introductory course structure. In their own words, commentaries expose students to alternative perspectives from non-anthropologists and indigenous peoples, and ethnoprofiles provide maps and ethnographic summaries of each society discussed at length in the text. The book also features many pedagogical aids, including a glossary, chapter summaries, and key terms at chapter ends, and annotated suggestions for further reading. New to this edition: an entirely new chapter dedicated to medical anthropology (Chapter 13), how is anthropology applied in the field of medicine; numerous updates to Chapter 4, how has anthropological thinking about cultural diversity changed over time; four new "In Their Own Words" boxes; a glossary of key terms to aid in studying and reviewing; all chapter titles and major headings are now in question form.

This comprehensive text is the only cultural anthropology text that fully integrates a unique applied approach into coverage of the basic principles of studying our own and other cultures. The applied approach shows different ways in which anthropological theory is used, not only by practicing anthropologists but also by others outside the field.

drawing on the authors fieldwork experience this text explores how cultural creativity human agency and the material conditions of everyday life interact to shape cultural practices discussions of ongoing controversies including tribalism vs globalization and increasing inequality between have and have not regions show how cultural anthropologists can tackle the world s most pressing social problems through their specialized knowledge and skills
