book defines the altitudes related to the stratosphere how it changes with latitude and the effects on ascending aviators also described is how over time technology enabled aircraft and balloons to achieve higher altitudes the book shows the clear influence of the military on designs that initially focused on speed and maneuverability but only later on reaching new altitudes the early flights into the troposphere and eventually the mid to upper reaches of the stratosphere are chronicled with great emphasis on flight operations this includes decompression bailouts inertia coupling ejections catastrophic disintegration crashes and deaths although the book highlights major altitude attempts and records it also focuses on the life threatening problems confronting the would be stratonaut and the causes of many of their deaths in doing so it tries to define just what it takes to be a stratonaut

a short but highly relevant history of the cold war 1919 1994 and its significance today the 75 year cold war pitted the anglo american world against the soviet bloc with china the ultimate prize chapter a will examine the creation of the anglo american special relationship the end of world war i 1919 versailles peace treaty and the lead in to world war ii chapter b will examine the bolshevik revolution 1919 comintern creation 1924 soviet bloc creation the tumultuous 1930s world war ii plus soviet competition with america and england through 1949 chapter c will discuss a china torn between west and east finally joining the soviet bloc in 1949 but by 1979 rejoining the west and cooperating to destroy the ussr from 1979 to 1994 when the final russian troops left germany in the conclusion the cold war s impact and strategic significance today will be discussed from 1979 to 1994 the u s government attempted to use its relations with china to exert diplomatic economic and military pressure on the ussr beginning in the late 1970s and continuing through the 1980s

china began to import high technology equipment from the united states to fill key sensor and weapon roles with the end of the cold war in particular the soviet navy was eliminated almost overnight as the world s second most powerful naval force russia s pacific fleet is now so poorly supplied and equipped that it rarely leaves port this unprecedented reversal of fortunes has created a maritime vacuum throughout east asia that china hopes to fill in recent years however the former sino u s cooperation has changed as rising chinese sponsored tensions in the south china sea have led to many possible points of alliance between beijing and moscow joint sino russian naval exercises are just one example vladimir putin and xi Jinping appear to once again be combining against the anglo american led west will history rhyme as mark twain says allowing the anglo american west to win cold war ii or will events turn out differently this time

book summary this book is a scientific investigation into the extraterrestrial hypothesis which demonstrates beyond a reasonable doubt that we are being visited by extraterrestrial beings from another world this story involves two unrelated cases of abduction the first case is the well known betty and barney hill case that was published in the interrupted journey in 1961 and captured in 2007 the second case involves a married couple named kay and erik wilson whose experiences were published in the alien jigsaw in 1993 and its accompanying researcher s supplement in 1994 information from both of these cases have been merged together to prove that the star map that betty hill drew was not only real but it was actually earth based the wilson case proved to be the key in unlocking the door like betty hill once again a brave soul had the courage to ask the beings where they come from and as a result of this unique one on one conversation between erik wilson and a grey without realizing it he was given major clues to find their home world set your phaser to stun reveals that betty s star map is real and the extraterrestrial hypothesis has been purposely skewed to deceive the public when carl sagan involved himself in this dispute many years ago he claimed betty s star map only showed meaningless random dots which were not specific points of reference for any known stars this book proves that sagan was wrong and was involved in what some people claim to be scientific misconduct relating to the ufo subject the stars that betty hill drew of the star map she was shown in 1961 are anything but random set your phaser to stun takes a fresh new look at the betty and barney hill case and examines previous interpretations of the star map with particular emphasis on marjorie fish s zeta reticuli interpretation this new research which began in the year 2000 uncovers the fact that some of our closest neighborhood

stars are linked in a network of trade and exploration by a highly advanced extraterrestrial civilization that is less than 50 light years away from us the real shock is the location of sol our sun and the role humans play in the aliens agenda for far too long the establishment has systematically denied the extraterrestrial hypothesis has any substance this opinionated stance has been based on the urgent need to control the dissemination of news that they feared would ultimately damage the fabric of our society should it be released an extreme political drama of the highest order has been blocking disclosure the military industrial complex has been unwilling to relinquish control to civilian authorities and there is a grave fear that disclosure will have a severe negative impact on our religious institutions worldwide they fear allowing the public access to information which would severely challenge the traditional belief that humanity is unique and has a special relationship to god the official position on this subject is based upon the idea that society is not prepared to handle the psychological impact of the knowledge that we are not alone in the universe they have even gone so far as resorting to scientific misconduct because they are deeply afraid of possible societal upheaval fortunately in may of 2008 a remarkable turn of events occurred within the catholic church when astronomer father gabriel funes wrote in the vatican newspaper that intelligent beings created by god could exist in outer space he moved further toward official legitimization of the acceptance of other life by calling the aliens our brothers and sisters this was the beginning of a slow and well planned acclimation process of one billion catholics worldwide it has often been stated that we would have to rewrite history if contact with an alien civilization ever took place set your phaser to stun is the beginning of that process

this book explores the question why is the us navy in the south china sea at all it traces the history of diplomatic economic and military tensions among the people s republic of china the soviet union the united states and the socialist republic of vietnam outlining the origins of the united states vietnam relationship during the immediate post world war ii period the turmoil of the vietnam war during which china supported north vietnam against a us backed south vietnam and the decision of the us government to open relations with china beginning in 1972 it shows how from 1945 1975 the us government used its relations with vietnam to exert diplomatic economic and military pressure on china to open negotiations leading to full recognition and further discusses the surprising action of the us navy in 1974 to allow the chinese navy to take the paracel islands by force thereby denying control over these islands to a united vietnam closely allied with the soviet

union which was the common enemy of both china and the usa overall the book demonstrates how the presence of the us navy in the south china sea is a crucial element in much wider global us strategy
