the world's foremost authority on the soviet army in world war ii offers the second installment of his pathbreaking trilogy on the epic clash at stalingrad the definitive account of the battle that produced a major turning point for both the eastern front and world war ii

these essays are organised into four sections dealing with the history of war crime trials from weimar germany to just after world war ii the sometimes diverging allied attempts to come to terms with the nazi concentration camp system the ability of postwar societies to confront war crimes of the past and the legacy of war crime trials

with its focus on tank crew members and their commanders this is a unique addition to the literature on wwii a harding ganz associate professor emeritus of the ohio state university at newark author of ghost division after the shocking fall of france in june 1940 the u s army embarked on a crash program to establish a new armored force one of the units formed was the 756th tank battalion light activated at fort lewis in june 1941 because of severe equipment shortages the new battalion trained without tanks for several months but by early 1942 were equipped with new m3 light tanks while companies a and c took part in operation torch b was withheld for lack of cargo space in the transport ships and rejoined the battalion two months later in north africa the units undertook reconnaissance missions following the landings in salerno in december 1943 the battalion was ordered to upgrade to a medium tank sherman unit given less than a month to reorganize and train in m4s the battalion was sent into the mignano gap and supported the 34th infantry division in the capture of cervaro and monte trocchio b company also supported the troops of the 100th battalion on bloody but ill fated attempts to cross the rapido river before finally establishing a secure bridgehead the nearby town of caira was also captured opening an avenue for an attack on cassino based on decades of research and hours of interviews with veterans of the 756th tank battalion jeff danby s vivid narrative puts the reader in the turret of b company s shermans as they ride into battle the level of detail is impressive wwii history magazine

this second volume portrays lewisohn s last decades as an outspoken opponent of nazi germany a leading promoter of jewish resettlement in palestine a member of brandeis university s first faculty and one of the earliest voices advocating jewish renewal in america despite his activism lewisohn was no longer welcome in Zionist circles by 1948 as a result of his unacceptable opinions concerning British intransigence organizational politics and particularly Jewish cultural and religious decline however the invitation to join the newly established Brandeis University as its only full professor provided him with the opportunity he sought to contribute to the reshaping of American Jewry lewisohn s efforts would later bear fruit in the Jewish renewal movement of the next generation

in 1940 the US Army Signal Intelligence Service broke the Japanese diplomatic code in 1975 Oshima Hiroshi Japan s ambassador to Berlin during World War II died never knowing that

the hundreds of messages he transmitted to tokyo had been fully decoded by the americans and whisked off to washington providing a major source of information for the allies on nazi activities

the harrowing history of the nazi attempt to annihilate the jews of europe during the second world war is graphically portrayed in 316 highly detailed maps over 40 photographs and extensive passages of text further illustrate these events

one of the most infamous and decisive battles of the second world war stalingrad was a turning point of the eastern front showing that the german juggernaut was not invincible this campaign book for bolt action allows players to refight the fierce battle of stalingrad from the actions of the surrounding area and within the city itself to the encirclement concerted relief efforts and the final attempted breakout new linked scenarios rules troop types and theatre selectors provide plenty of options for both novice and veteran players alike

individual liberty is ingrained in american culture yet in contrast to this cherished ideal american men were inducted into military service under a system that flourished for more than twenty years before its rationalization was seriously questioned by more than a small minority of citizens analyzing this paradox george flynn provides the first comprehensive look at an institution that managed to sustain political and public favor through two wars before dying out under a barrage of protests during a third placing the american draft within a historical context he shows how social and political considerations determined the character of conscription in the united states the draft developed as it did he argues not mainly because of military needs or strategy but because of political decisions initiated by civilians with nonmilitary agendas explaining why the draft remained relatively immune to political criticism prior to the vietnam conflict flynn chronicles the draft s military and strategic successes and failures in america s mid century wars he shows how major institutions and lobbies representing science education and various professions and religions influenced it and how ultimately and ironically the selective character of the draft eventually made the system inequitable and helped cause its downfall book jacket title summary field provided by blackwell north america inc all rights reserved

a detailed study of the operations politics culture and autonomy of soviet partisans or guerrillas who fought the german army in wwii blending military political social and cultural history slepyan also provides a prism for viewing relations between the suffocating stalinist state and its independent partisan warriors

national archives war histories is a new series of official accounts of famous campaigns and units in british military history the histories were written by official historians who had access to all the original sources and often interviewed the leading surviving participants this is the official account of revolutionary new warfare as practised by the famous irregular units in the desert campaign and is an authoritative official source book this history includes stirring narratives of daring raids miles behind enemy lines it features such famous characters as ord wingate david stirling and Lt col keyes vc recounting the establishment and role of the forces within the 8th army and allied campaign it includes photographs maps a list of officers serving and the awards received by members of the long range desert group the book features the following units the sas long range desert group layforce special boat squadron long range boat patrol middle east commandos special boat squadron indian long range squadron free french commandos

this book contains the companion appendixes to colossus reborn by david glantz published in 2005 by university press of kansas

it seemed that whenever mussolini acted on his own it was bad news for hitler indeed the fuhrer s relations with his axis partners were fraught with an almost total lack of coordination compared to the allies the coalition was hardly an alliance at all focusing on germany s military relations with italy romania hungary and finland richard dinardo unearths a wealth of information that reveals how the axis coalition largely undermined hitler s objectives from the eastern front to the balkans mediterranean and north africa dinardo argues that the axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation s fundamental mistrust of the others germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because hitler insisted on separate pacts with each nation italy and finland often found themselves conducting counterproductive parallel wars on their own dinardo s detailed assessments of ground naval and air operations reveal precisely why the axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example his analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as rommel s effective coordination with italian forces in north africa in the end while some individual axis units fought with distinction if not on a par with the vaunted wehrmacht and helped germany achieve some of its military aims the coalition s overall military performance was riddled with disappointments breaking new ground dinardo s work enlarges our understanding of germany s defeat while at the same

time offering a timely reminder of the challenges presented by coalition warfare

based upon original research in archives in ireland great britain the united states and canada this study opens a new page in the history of wartime propaganda and censorship

as engaging as it is astonishing this book provides extremely important revelations and striking pen portraits etched in acid of the main actors certainly the sources are fabulous john erickson author of the road to stalingrad a well written account filled with original material and documentation good reading for anyone interested in the history of wwii intelligence publishers weekly starred review

this volume a collection of eleven original essays by many of the foremost u s military historians focuses on the transition of the army from parade ground to battleground in each of nine wars the united states has fought through careful analysis of organization training and tactical doctrine each essay seeks to explain the strengths and weaknesses evidenced by the outcome of the first significant engagement or campaign of the war the concluding essay sets out to synthesize the findings and to discover whether or not american first battles manifest a characteristic rhythm america s first battles provides a novel and intellectually challenging view of how america has prepared for war and how operations and tactics have changed over time the thrust of the book the emphasis on operational history is at the forefront of scholarly activity in military history this book is part of the modern war studies series

based on an unparalleled access to russian archival sources and going far beyond the military aspects of other historical works glantz s book is a testament to the nearly two million russians who lost their lives during the battle for leningrad 90 illustrations 16 maps
