another textbook about learning in the post compulsory sector fortunately this one has an abundant supply of a quality that is often lacking in such books thoughtful originality backed up by meaningful experience on the part of the author the book as a whole is mercifully free of unnecessary jargon a point that the author points out in the preface and is accessible and friendly in tone race s ripples on a pond model is effortlessly applicable to a range of learning and teaching situations and provides a useful tool for exploring teaching and learning practice escalate professor race is without a doubt a master of intelligent simplicity this book may seem to be innocent of theory but a serious understanding of the needs of learners is clear behind every page the approach is to make sense of the collated feedback from thousands of students and teachers gleaned by questions asked during workshops and seminars there is an enormous amount of practical useful material it is replete with lists charts bullet points pithy hints and guidelines i will not be in the least surprised if this book is a runaway success anita pincas lifelong education and international development institute of education london phil race freely shares his experience and his wise counsel in a text where he emerges from the pages as a clear thinking clear writing expert in this field with much to offer john cowan emeritus professor of learning development the open university making learning happen provides an accessible and practical discussion of teaching and learning for the post compulsory sector of higher and further education much of the existing educational literature on learning is written in language which makes it inaccessible to the

people most directly involved in learning learners and their teachers this book avoids the unnecessary jargon and elitist language which has too often hitherto hindered teachers and learners alike in thinking about how best to make learning happen this book will help staff in higher and further education increase the learning payoff which their students derive from a wide range of educational contexts at all levels in post compulsory education the book is centred around phil race s well known ripples on a pond model of learning which has identified five fundamental factors underpinning successful learning o wanting to learn o needing to learn o learning by doing o feedback o digesting making sense of what has been learned this text will allow teachers and students to address these factors head on in a wide range of contexts including large group teaching small group work online learning and in their use of formative feedback to help their students included in the book is a self analysis questionnaire to enable learners to reflect on how these factors contribute to their own approaches to learning making learning happen is a valuable resource for postgraduate students on pgd higher and further education courses staff development courses in all bristish universities and is a helpful tool for lecturers and tutors in higher and further education post 16 teachers in secondary education educational managers and students themselves
