you will never look at the world in the same way after reading as the future catches you juan enriquez puts you face to face with a series of unprecedented political ethical economic and financial issues dramatically demonstrating the cascading impact of the genetic digital and knowledge revolutions on your life genetics will be the dominant language of this century those who can speak it will acquire direct and deliberate control over all forms of life but most countries and individuals remain illiterate in what is rapidly becoming the greatest single driver of the global economy wealth will be more concentrated and those with knowledge to sell both countries and individuals will be the winners consider what will happen when your genetic code can be digitally imprinted on an id card and your insurance company and employer see that you are genetically disposed to say heart disease pharmaceutical products are developed so that you can eat genetically modified broccoli to protect yourself from cancer cloning will be as common as in vitro fertilization and scientists can influence the genetic design not only of other species but of your own children creating wealth no longer requires many hands lone individuals are giving birth to entire new industries that rapidly become bigger than the economies of most countries on earth but create very few jobs as the future catches you resembles no other book a typical page may contain just a few dozen words but each seemingly discrete fact is like a chip in an intellectual mosaic that reveals its meaning and beauty only as you step back and see the big picture juan enriquez is like the best teacher you ever had one who helps you to see something in a new light and makes you say now i get it

juan enriquez s main point is that technology is not kind it does not say please but slams into existing systems and destroys them while creating new ones countries and individuals can either surf new and powerful waves of change or get crushed trying to stop them the future is catching us all let it catch you with your eyes wide open

the book reexamines this long held belief and argues that the historical method is an excellent way to think about and represent the future at the same time the book asserts that futurists should not view the future as a scientist might aiming for predictions and certainties but rather should view the future in the same way that an historian views the past

are displaced and emigrated academics at risk or in reserve are political oppression of dissident scholars and economic precarization of academic workforce separate phenomena or two sides of the same coin can the pervasive precariousness in its various forms foster a conversation on shared sensibilities and can traumatic experiences like exile and loss eventually lead to a revival of agency based on the author s own experiences and on in depth interviews with the exiled peace academics at the margins of academia offers a broad approach to the challenge of academic labor precarity and the growing academic migration from turkey to european academic labor markets it provides a detailed analysis of the systemic background of precariousness and the socio emotional expressions of being kept in reserve in conjunction with the antinomies of exile

craig venter embarks on a series of epic ocean voyages to seek out genetically sequence and learn from underwater microbes the voyage of sorcerer ii reveals a treasure trove of previously unknown life and shows how from improving human health to confronting climate change microbes are key to our future

dr norman l geisler has been called the father of evangelical christian philosophy he has written more than one hundred books and taught at universities and top seminaries for some fifty six years he was the first president of the evangelical

philosophical society and the founder and first president of the international society of christian apologetics he has spoken or debated in more than two dozen countries and held pastoral pulpit ministries in four states many view him as a cross between thomas aquinas and billy graham no one has done more to communicate the modern challenges of the faith to the average christian to the church and to the academy this volume offers creative and constructive essays from twenty three contributors all notable in their own right who preserve and propagate dr geisler s ideas and express appreciation for his influence those who know him best say he is true faithful and blessed by god

this book of thoroughly engaging essays from one of today s most prodigious innovators provides a uniquely personal perspective on the lives and achievements of a selection of intriguing figures from the history of science and technology weaving together his immersive interest in people and history with insights gathered from his own experiences stephen wolfram gives an ennobling look at some of the individuals whose ideas and creations have helped shape our world today from his recollections about working with richard feynman to his insights about how alan turing s work has unleashed generations of innovation to the true role of ada lovelace in the history of computing wolfram takes the reader into the minds and lives of great thinkers and creators of the past few centuries and shows how great achievements can arise from dramatically different personalities and life trajectories

this manual has been designed and written with the purpose of introducing key concepts and areas of debate around the creative economy a valuable development opportunity that latin america the caribbean and the world at large cannot afford to miss the creative economy which we call the orange economy in this book you ll see why encompasses the immense wealth of talent intellectual property interconnectedness and of course cultural heritage of the latin american and caribbean region and indeed every region at the end of this manual you will have the knowledge base necessary to understand and explain what the orange

economy is and why it is so important you will also acquire the analytical tools needed to take better advantage of opportunities across the arts heritage media and creative services

breakthroughs in biotechnology are redefining the very concept of life transforming society and presenting unprecedented opportunities and challenges will human genome sequencing help to treat genetic diseases and indefinitely prolong life can nature s workshops inspire superior biomaterials that transform industries will genetically modified super crops feed a hungry world with biotechnology set to be the driving force of the twenty first century mastery of the life sciences will be the key to wealth generation and economic ascendancy can the arab world regain its past supremacy in these fields can it benefit from the biotech revolution while avoiding its perils these essays examine the complex ethical legal and social issues raised by the biotech revolution that need to be resolved by governments and decision makers

walk don t run whatever was going to happen aidan kendall had decided to stay and ride it out the truth was he was tired of running tired of packing up his suitcase and hitting the road to nowhere tired of being alone keeping people at arm s length and waiting for the shadow following on his heels to catch up with him and destroy him maybe that was the reason he d stayed in old orchard perhaps subconsciously he d known that this was where his running would end so he would stop running and that included from the mysterious and unique penelope moon and whatever bonds were developing between them but would their love be strong enough to survive the truth

when death gives workaholic maddy banks a second chance at happiness she realizes schmoozing her way through life isn t much of a life at all original
