this book contests a tradition and convention in educational thinking that dichotomises children and curriculum by developing the notion of re conceiving children in curriculum by presenting an innovative research project in which she worked with children to share their understandings of the internationally renowned te whāriki curriculum marg sellers explores what the curriculum means to children and how it works as demonstrated in games they played in generating different ways for thinking the author draws upon her work with the philosophical imaginaries of gilles deleuze and felix guattari whose ideas

shape both the content and the non linear structure of this book topics covered include rhizomes rhizo methodology and rhizoanalysis plateaus de territorialising lines of flight dynamic spaces the notion of empowerment this assemblage of deleuzo guattarian imaginaries generates ways for thinking differently about children s complex interrelationships with curriculum and opens possibilities for re conceiving both reconceiving and receiving children s understandings within adult conceptions of how curriculum works for young children this book will be of interest to early childhood students scholars and practitioners alike also appealing to those interested in philosophical theoretical and practical understandings of curriculum in general

experience how the power of the cross unleashes meaning and purpose in the midst of your daily life this meditative and spiritual reflection by ken costa considers the cross and the king who died upon it christ s work on the cross established a kingdom that is strange indeed if a king died on the cross in order to establish it it is a kingdom where suffering and abandonment are transformed into the power of presence and live a kingdom where a king exchanges gifts of great value for worthless dross where a robber becomes righteous and a criminal becomes the first citizen of heaven spend some time as easter draws near considering the strange upside down kingdom where broken things are made whole a king who dies on the cross must be the king of a rather strange kingdom dietrich bonhoeffer strange kingdom is a joy in my 47 years in the christian publishing business ken costa s compelling and inspirational reflections are unique on the meaning and purpose of the cross of christ a must read for every christian and a revelation for the spiritually curious joey paul senior editor harpercollins christian publishing nashville tn ken costa masterfully and meticulously gives us an in depth look at the cross of jesus and what it means to us in our everyday lives robert morris senior pastor gateway church southlake tx ken costa s deep love for god and unashamed defense of the cross of jesus christ is mirrored in this book the perspective of a banker the mind of a scholar and the heart of a christian who wants people to love christ radiates on every page r t kendall author and former minister of westminster chapel england a fresh revelation of christ and the power of the cross joseph prince senior pastor new creation church singapore not since john stott s the cross of christ have i read a book on the saving work of jesus that i want to return to again and again as much as this one miles toulmin vicar htbb kuala lumpur malaysia this book will encourage your faith and deepen your understanding of what the cross means to people in their day to day lives jentezen franklin senior pastor free chapel gainesville ga his honesty opens a window onto the meaning of the cross and the upside down world it invites us in justin welby archbishop of canterbury england

this book offers an original philosophical perspective on exemplarity inspired by wittgenstein s later work and derrida s theory of deconstruction it argues that examples are not static entities but rather oscillate between singular and universal moments there is a broad consensus that exemplary cases mediate between singular instances and universal concepts or norms in the first part of the book m cha contends that there is a kind of diff@rance between singular examples and general exemplars or paradigms every example is in part also an exemplar and vice versa furthermore he develops a

paracomplete approach to the logic of exemplarity which allows us to say of an exemplar of x neither that it is an x nor that it is not an x this paradox is structurally isomorphic to Russell's paradox and can be addressed in similar ways in the second part of the book. Macchia presents four historical studies that exemplify the ideas developed in the first part. This part begins with Plato's forms understood as standards/paradigms before considering Kant's theory of reflective judgment as a general epistemological account of exemplarity. This is then followed by analyses of Hegel's conceptual moment of particularity and Kuhn's concept of paradigm. The book concludes by discussing the speculative hypothesis that all our knowledge is based on paradigms which, following the logic of exemplarity, are neither true nor false. The philosophy of exemplarity will be of interest to scholars and advanced students working in philosophy of language, logic, history of philosophy, and literary theory.
