this book provides the first sustained empirical evidence on the relationships between marriage migration and processes of integration focusing on two of the largest british ethnic minority groups involved in these kinds of transnational marriages pakistani muslims and indian sikhs in britain and across europe concern has been increasingly expressed over the implications of marriage related migration for integration children and grandchildren of former immigrants marrying partners from their ancestral homelands is often presented as problematic in forming a first generation in every generation and inhibiting processes of individual and group integration impeding socio economic participation and cultural change as a result immigration restrictions have been justified on the grounds of promoting integration despite limited evidence marriage migration and integration provides much needed new grounding for both academic and policy debates this book draws on both quantitative and qualitative data to compare transnational homeland marriages with intra ethnic marriages within the uk using a distinctive holistic model of integration the authors examine processes in multiple interacting domains such as employment education social networks extended family living gender relations and belonging it will be of use to students and scholars across sociology social anthropology and social policy with a focus on migration integration family studies gender and ethnic studies as

well as policy makers and service providers in the uk and across europe

at a time of growing concern over the fate of contemporary democracy this book shows how vast differences between countries in forms of political conduct and taken for granted assumptions determine what democracies actually accomplish in democratic practice robert m fishman elucidates why some democracies include the economically underprivileged and cultural others within the circles of political relevance that set policies and the political agenda whereas others exclude them on the basis of in depth research on portugal and spain fishman develops a theoretically innovative explanation for the breadth of democratic inclusion and draws out large implications for democracies everywhere democratic practice examines the record of two countries that began the worldwide turn to democracy in the 1970s showing how and why basic assumptions about what democracy is and how political actors should treat one another diverged the book offers detailed empirical evidence on how an inclusive approach to democratic politics provides major benefits not only for the poor and excluded but also for others drawing large lessons for contemporary democracies

the ebook boxed set collection of six complete new adult books by the most popular authors in the genre including wait for you by j lynn jennifer l armentrout losing it by cora carmack taking chances by molly mcadams a little too far by lisa desrochers rule by jay crownover and foreplay by sophie jordan

this book elucidates the potential of the shipbuilding industry for initiating economic development which eventually leads to enhancing the prosperity of a nation this is explained by intrinsically linking the macroeconomics of the nation with the microeconomics of the shipbuilding industry the economic and commercial spin offs by the shipyard to the various industries have been analysed and calculated an attempt has been made to trace the illustrious past of indian shipbuilding from the bronze age through the ancient kingdom period to the present times in the backdrop of indian maritime history the operational requirement of commercial as well as defence shipbuilding has been analysed to assess the available potential market space for the indian shipbuilding industry lessons from history help to formulate future strategies in pursuit of this the book investigates the global trends in commercial shipbuilding since the industrial revolution period to date the success stories of leading shipbuilding nations viz uk usa japan korea and china have been analysed the benefits accrued by these nations through shipbuilding have been summarised the strategies adopted by each of these countries to reach the pinnacle in shipbuilding have been examined and the salient features relevant for india have been identified productivity measurement in shipbuilding has been examined and the problems with the current system have been highlighted along with solutions this book suggests the usage of data envelopment analysis dea a mathematical linear programming technique as an appropriate tool to measure total productivity as well as profitability the various ways of improving profitability in shipbuilding by way of cost cutting techniques along with some indian case studies have been explained in the book keeping the indian maritime agenda 2010 2020 vision document in the backdrop a strategic appreciation of the indian shipbuilding industry has been undertaken using the swot the matrix and the scenario analyses based on these analyses strategies have been formulated for all the stakeholders who can influence the indian shipbuilding industry the book then identifies the need for an alchemist leader who can harmonise all the stakeholders and thereby propel the indian shipbuilding industry towards achieving the long term goal of creating a prosperous india

the self has a history in the west the idea of the soul entered christianity with the church fathers notably augustine during the renaissance the idea of the individual

attained preeminence as in the works of montaigne in the seventeenth century philosophers such as descartes formulated notions of selfhood that did not require a divine foundation in the next century hume grew skeptical of the self's very existence ideas of the self have changed markedly since the romantic period and most scholars today regard it as at best a mental construct first person genres such as diaries and memoirs have provided an outlet for self expression protestant diaries replaced the catholic confessional but secular diaries such as pepys's may reveal yet more about the self after richardson novels competed with diaries and memoirs as vehicles of self expression though memoirs survived and continue to thrive while the diary has found a new incarnation in the personal blog writing the self narrates the intertwined histories of the self and of self expression through first person literature

the vat carousel fraud has seriously undermined the financial integrity of the european union emissions trading scheme eu ets this timely book is the first to give an overview of fraud in the carbon market written by a former broker it presents unique material on the carbon fraud mechanics and analyses the missing trader fraud vat fraud on european carbon allowances markets with a focus on financial and organised crime issues fraud and carbon markets the carbon connection assesses the weaknesses of the kyoto protocol and environmental markets using statistics as a forensic tool on the capital markets it describes specific cases the court investigations and various mechanisms it addresses issues of money laundering and international fraud on capital markets such as stock manipulation by exploring the financial mechanisms of the fraud their impact on the market behaviour and the consequences on their econometric features researchers and students in climate change policy environmental finance financial law organised crime forensic statistics financial regulation and risk management as well as financial regulators and policy makers will find this book of great interest

clinical ethics is the application of ethical theories principles rules and guidelines to clinical situations in medicine therefore clinical ethics is analogous to clinical medicine in that general principles and concepts must be applied intelligently and thoughtfully to unique clinical circumstances the three major ethical theories are consequentialism whereby the consequences of an action determine whether it is ethical deontology whereby to be ethical is to do one's duty and virtue ethics whereby ethics is a matter of cultivating appropriate virtues in the real world of medicine most people find that all three perspectives offer useful insights and are complementary rather than contradictory the most common approach to clinical ethical analysis is principlism according to principlism the medical practitioner must attempt to uphold four important principles respect for patient autonomy beneficence nonmaleficence and justice when these principles conflict resolving them depends on the details of the case alternative approaches to medical ethics including the primacy of beneficence care based ethics feminist ethics and narrative ethics help to define the limitations of principlism and provide a broader perspective on medical ethics

humorous historical fiction in diary format montezuma last emperor of the aztecs lived in a palace and was deemed so holy that he never put his feet on the ground
