this book marks kenneth burke s breakthrough in criticism from the literary and aesthetic into social theory and the philosophy of history in this volume we find burke s first entry into what he calls his theory of dramatism and here also is an important section on the nature of ritual

bremen s study examines the development of william carlos williams s poetics focusing in particular on williams s ongoing fascination with the effects of poetry and prose and his life long friendship with kenneth burke using a framework based on burke s and williams s theoretical writings and correspondence as well as on the work of contemporary cultural critics bremen looks closely at how williams s poetic strategies are intimately tied to his medical practice incorporating a form of methodological empiricism that extends his diagnoses beyond the individual to include both language and community the book develops a series of rhetorical cognitive medical and political analogues that clarify the poetic and cultural achievements williams hoped to realize in his writing

designed as a tribute to world renowned ethnomusicologist bruno nettl this volume explores the ways in which ethnomusicologists are contributing to the larger task of investigating music

history the fifteen contributors explore topics ranging from meetings with the *suyá* indians of brazil to the german speaking jewish community of israel from indian music in felicity trinidad to ravi shankar s role as cultural mediator this book is unique not only for its approach but also for the scope of its content it is definitely a must for libraries of research centers and institutions with ethnomusicology programs choice

this book explores the causes of public opposition to immigration in three industrialized western countries

this is the first book length work in english dealing with the crucial and troubled relationship between korea and the united states leading scholars in the field examine the various historical political cultural and psychological aspects of korean american relations in the context of american global and east asian relationships especially with japan

this is a sophisticated study of how bodies and language move and are moved by each other kenneth burke may be best known for his theories of dramatism and of language as symbolic action but few know him as one of the twentieth century s foremost theorists of the relationship between language and bodies moving bodies presents him as a major transdisciplinary theorist of the body debra hawhee focuses on burke s studies from the 1930s 40s and 50s while illustrating that his interest in reading the body as a central force of communication began early in his career and continued to inform his work over more than six decades burke examined the human body as a participant in thought rather than as the mind s binary cartesian opposite grappling with notions of physical form as a corporeal intellect the mental and biological interwoven within one life by exploring his extensive writings on the subject alongside revealing considerations of his life and his scholarship hawhee maps his recurring invocation of a variety of perspectives in order to theorize bodies and communication including music mysticism endocrinology evolution speech gesture theory and speech act theory as well as his personal experiences with pain and illness hawhee shows that burke s goal was to advance understanding of the body s relationship to identity to the creation of meaning and to the circulation of language her study brings to the fore one of burke s most important and understudied contributions to language theory and she establishes burke as a pioneer in a field where investigations into affect movement and sense perception broaden understanding of physical ways of knowing

the results of the process of modernization which started in japan in the 19th century and continues today are remarkable in history this volume contains essays by leading scholars on

japan including two important studies on the impact of modernization on the life of the country it is the first in a series of five volumes that stems from the association for asian studies conference on modern japan originally published in 1965 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

providing the first volume length exploration of the role that dialogue can play in history education classrooms this book explores the socio cultural psychological and digital dimensions of dialogic practice to promote research into historical thinking historical consciousness and critical thinking in educational settings this book s novel approach is in its analysis of dialogical processes in various international and intercultural educational contexts chapters compare israeli and palestinian textbooks and classroom discussion and explore teachers challenges to shift monologic school culture as well as approaches to enhancing dialogic practices both in us contexts and in several eu countries each case study provides an insight into the nature of dialogue as both shared historical inquiry and cultural practice how can dialogue be promoted and through what mechanisms in what ways can dialogue contribute to democratic societies thriving and dealing with and overcoming conflicts about different views on the past ultimately the book looks to foster a nuanced and complex understanding of history prompting consideration of different perspectives and a collective approach to overcoming troubled pasts and trauma featuring a truly international set of contributions from established and emerging scholars this book will appeal to scholars researchers and postgraduate students interested in the history of education education policy and politics and historiography more broadly this book was made possible with the support of the eu project making histories eu 10108606 coordinated by the first author

this volume analyzes in considerable depth how fears prejudices social and moral values and individual perceptions have affected and shaped the public the personal the professional and the economic ways in which our society interacts with people suffering from hiv infections

Recognizing the exaggeration **Attitudes Toward History** is remained in right site to start
ways to acquire this ebook additionally useful. You have getting this info. acquire the
