discussion of enterprise risk management by examining emerging topics in risk management with respect to people and technology. James Lam is president of James Lam Associates, an independent risk advisory firm before starting his own firm. Lam was founder and president of eRisk and partner of Oliver Wyman Company in 1997 as chief risk officer at Fidelity Investments. He was named the first ever financial risk manager of the year by the Global Association of Risk Professionals prior to Fidelity. He was chief risk officer of Capital Markets Services Inc a GE Capital company. Lam graduated with honors from Baruch College and received his MBA from UCLA. He is also currently an adjunct professor of finance at Babson College.

The most practical and sensible way to implement ERM while avoiding all of the classic mistakes emphasizes an enterprise risk management approach that utilizes actual business data to estimate the probability and impact of key risks in an organization. Practical Enterprise Risk Management: A Business Process Approach boils this topic down to make it accessible to both line managers and high level executives alike. The key lessons involve basing risk estimates and prevention techniques on known quantities rather than subjective estimates which many popular ERM methodologies consist of. Shows readers how to look at real results and actual business processes to get to the root cause of key risks. Explains how to manage risks based on an understanding of the problem rather than best guess estimates. Emphasizes a focus on potential outcomes from existing processes as well as a look at actual outcomes over time. Throughout practical examples are included from various healthcare, manufacturing and retail industries that demonstrate key concepts, implementation guidance to get started as well as tables of risk indicators and metrics, physical structure diagrams and graphs.

Why Should a Company Have an Operational Risk Management Function and How Should It Be Organized? No Excuses! proposes that operational risk should be examined through the business processes that is the flows of business.
