during the covid 19 pandemic employees of maritime and logistics sectors have continued their activities both on shore and on board to complete operations and supply continuity of logistics management in hard times while organizations worked to provide the best services to customers the shipping industry suffered by the work life changes brought by the pandemic changes have been felt in talent management in new shipping changing maritime ethics and affecting the maritime industry psychology employee motivation importance of seafarers and employee rights and responsibilities the handbook of research on the future of the maritime industry presents leaders and managers from maritime and logistics industries sharing their

experiences new paradigms practices and strategies this book provides practical ideas and strategies to cope with the consequences of the new normal in the wake of the global pandemic crisis covering topics such as employee rights occupational safety and psychological effects this book is an essential resource for senior executives leaders and managers hr professionals lecturers business clusters entrepreneurs researchers scholars academicians and faculty of higher education

in today's developing world international trade is a field that is rapidly growing within this economic market traders need to implement new approaches in order to satisfy consumers rising demands due to the high level of competition merchants have focused on developing new transportation and logistics strategies in order to execute effective transportation tactics decision makers need to know the fundamentals current developments and future trends of intercontinental transportation the handbook of research on the applications of international transportation and logistics for world trade provides emerging research exploring the effective and productive solutions to global transportation and logistics by applying fundamental and in depth knowledge together with current applications and future aspects featuring coverage on a broad range of topics such as international regulations inventory management and distribution networks this book is ideally designed for logistics authorities trading companies logistics operators transportation specialists government officials managers policymakers researchers academicians and students

the purpose of the Australian chart and publication maintenance handbook is to provide information to assist mariners to maintain navigational chart outfits and nautical publications as well as to keep appropriate maintenance records preface

this book provides a response to the unexpected challenges imposed on every aspect of today's maritime business all chapters of this book are concerned with the single challenge facing the maritime business world that is uncertainty each chapter deals with a specific area of the maritime business community in an effort to better understand the complicated markets to seek for a solution of economic or financial sustainability under the pressure of climate changes to discuss technology as an option for the future and finally to show how to utilise the big data set for better informed decision and policymaking that used to be unfeasible in terms of scale and capacity it is hoped that all those endeavours are considered as the first small step towards practically transforming the industry in line with Schumpeter 1943 as well as academically changing a paradigm of thinking and scientific discovery in line with Kuhn 2012 so that the maritime industry is better informed and prepared and can greatly contribute to human lives

the transnav 2011 symposium held at the Gdynia Maritime University Poland

in June 2011 has brought together a wide range of participants from all over the world the program has offered a variety of contributions allowing to look at many aspects of the navigational safety from various different points of view topics presented and discussed at the

training and certification for seafarers has been founded on technical aspects but maybe the most important thing to do aboard a ship is dealing with people this book written with seamen in mind covers areas of expertise that every officer should know to improve motivation engagement teamwork and conflict handling in short to be a leader this book also covers the new requirements for every officer or merchant marine and can be used in courses on this topic it focuses on seafarers needs and the language used avoiding the excessive use of psychological terms yet keeping the accuracy features covers new requirements for every merchant marine officer written for and by a seaman with the accuracy of a psychologist presents knowledge on how to improve motivation engagement teamwork and conflict handling includes how to manage people in emergency situations and avoid the loss of lives like the disaster of Costa Concordia and Estonia

seafaring is a very demanding profession being far away from family and friends being unable to leave the workplace and having fewer choices during non working hours can affect physical mental and emotional health for seafarers whilst on board the ship is not only a place of work but also a home wellbeing means a state of good health and fulfilment it is not just the absence of illness but also about achieving a positive mental state to thrive and be fulfilled at work this practical guide will offer guidance for seafarers on fitness and diet general health personal and social wellbeing mental health issues and relationships and communication with an extensive appendix there is practical guidance to help seafarers with everyday life easy to read and full of illustrations this pocket book will be an essential resource to offer support to seafarers to promote a state of healthy wellbeing at sea
