the tasmanian devil is threatened by devil facial tumour disease dftd a
transmissible form of cancer that has reduced the population by over 80
persecution extreme climate events vehicle collision and habitat destruction also
put pressure on this endangered species the recovery effort to save the
tasmanian devil commenced over 15 years ago as a collaborative initiative
between the tasmanian government the australian government the zoo and
aquarium association australasia and many research institutions saving the
tasmanian devil documents the journey taken by partner organisations in
discovering what dftd is the effect it has on wild devil populations and the
outcomes achieved through research and management actions chapters
describe all aspects of devil conservation including the captive devil populations
applied pathology immunology and genetic research findings adaptive
management and the importance of advocacy and partnerships this book will
provide management practitioners and conservation scientists with insight into
the complexities of undertaking a program of this scale and will also be of value
to researchers students and others interested in conservation

zahi zalloua provides the first examination of palestinian identity from the
perspective of indigeneity and critical black studies examining the palestinian

question through the lens of settler colonialism and indigeneity this timely book warns against the liberal approach to palestinian indigeneity which reinforces cultural domination and urgently argues for the universal nature of the palestinian struggle foregrounding palestinian indigeneity reframes the palestinian israeli conflict as a problem of wrongful dispossession a historical harm that continues to be inflicted on the population under the brutal occupation of the west bank and gaza at the same time in a global context marked by liberal democratic ideology such an approach leads either to liberal tolerance the minority is permitted to exist so long as their culture can be contained within the majority order or racial separatism that is appeals for national independence typically embodied in the two state solution solidarity and the palestinian cause not only insists that any analysis of indigeneity s purchase must keep this problem of translation in mind but also that we must recast the palestinian struggle as a universal one as demonstrated by the palestinian support for such movements as black lives matter and the reciprocal support palestinians receive from blm activists the palestinian cause fosters a solidarity of the excluded this solidarity underscores the interlocking global struggles for emancipation from racial domination and economic exploitation drawing on key palestinian voices including edward said and larissa sansour as well as a wide range of influential philosophers such as slavoj žižek frantz fanon and achille mbembe zalloua brings together the palestinian question indigeneity and critical black studies to develop a transformative anti racist vision of the world

in this book aoife daly argues that where courts decide children s best interests for example about parental contact the un convention on the rights of the child s right to be heard is insufficient and autonomy should instead be the focus global law and practice indicate that children are regularly denied due process rights in their own best interest proceedings and find their wishes easily overridden it is argued that a children s autonomy principle respecting children s wishes unless significant harm would likely result would ensure greater support for children in proceedings and greater obligations on adults to engage in transparent decision making this book is a call for a reconceptualisation of the status of children in a key area of children s rights
