next big idea club must read one of lit hub s most anticipated books for fall 2024 one of untapped new york s best nyc books of all time a town country must read for fall 2024 in development with mark gordon pictures paulina bren captures the feeling of the culture maggie lange washington post the propulsive story of the women who sought and gained a piece of the action on wall street first came the secretaries from brooklyn and queens the smart cookies who saw that making money lots of it might be within their grasp then came the first female harvard business school graduates who were in for a rude awakening because an equal degree did not mean equal opportunity but by the 1980s as the market went into turbodrive women were being plucked from elite campuses to feed the belly of a rapidly expanding beast playing for high stakes in wall street s bad boy culture by day and clubbing by night in she wolves award winning historian paulina bren tells the story of how women infiltrated wall street from the swinging sixties to 9 11 starting at a time when no ladies signs hung across the doors of its luncheon clubs and more discretely inside its brokerage houses and investment banks if the wolves of wall street made a show of their ferocity the she wolves did so with subtlety and finesse research analysts signed their reports with genderless initials muriel mickie siebert the first woman to buy a seat on the nyse threatened she d have port a potties delivered if the exchange didn t finally install a ladies room near the dining room the infamous 1996 boom boom room class action lawsuit filed by women at smith barney pulled back the curtain on a bawdy subculture where unapologetic sexism and racism were the norm as engaging as it is enraging she wolves is an illuminating deep dive into the collision of women finance and new york

the sharp realities of financial globalization become clear during crises when winners and losers emerge crises usher in short and long term changes to the status quo and everyone agrees that learning from crises is a top priority the evidence and impact of financial globalization devotes separate articles to specific crises the conditions that cause them and the longstanding arrangements devised to address them while other books and journal articles treat these subjects in isolation this volume presents a wide ranging consistent yet varied specificity substantial authoritative and useful these articles provide material unavailable elsewhere substantial articles by top scholars sets this volume apart from other information sources rapidly developing subjects will interest readers well into the future reader demand and lack of competitors underline the high value of these reference works

why are we in such a financial mess today there are lots of proximate causes over

leverage global imbalances bad financial technology that lead to widespread underestimation of risk but these are all symptoms until we isolate and tackle fundamental causes we will fail to extirpate the disease econned is the first book to examine the unquestioned role of economists as policy makers and how they helped create an unmitigated economic disaster here yves smith looks at how economists in key policy positions put doctrine before hard evidence ignoring the deteriorating conditions and rising dangers that eventually led them and us off the cliff and into financial meltdown intelligently written for the layman smith takes us on a terrifying investigation of the financial realm over the last twenty five years of misrepresentations naive interpretations of economic conditions rationalizations of bad outcomes and rejection of clear signs of growing instability in econned author yves smith reveals why the measures taken by the obama administration are mere palliatives and are unlikely to pave the way for a solid recovery how economists have come to play a profoundly anti democratic role in policy how financial models and concepts that were discredited more than thirty years ago are still widely used by banks regulators and investors how management and employees of major financial firms looted them enriching themselves and leaving the mess to taxpayers how financial regulation enabled predatory behavior by wall street towards investors how economics has no theory of financial systems yet economists fearlessly prescribe how to manage them

this book examines how legal systems and mechanisms give shape to the capitalist economic system in this regard it focuses on the most important of these systems such as monetary and financial law company law fiscality contract and labour law further the book provides a thorough analysis of the underlying ethical values of said legal systems and mechanisms it also gives an overview of several potentially devastating related effects such as poverty the increasing polarisation between rich and poor climate change and mounting debts at both the public and private level the book concludes by presenting proposals for change given its critical analysis of legal systems and mechanisms in connection with the value choices dictated by economic ideologies the book will be of particular interest to legal and economic academics researchers and students but also to policymakers and more generally to anyone with a genuine concern for how the socio economic order will evolve

a far reaching examination of how america came to treat street and corporate crime so differently while america incarcerates its most marginalized citizens at an unparalleled rate the nation has never developed the capacity to consistently prosecute corporate

wrongdoing dual justice unearths the intertwined histories of these two phenomena and reveals that they constitute more than just modern hypocrisy by examining the carceral and regulatory states evolutions from 1870 through today anthony grasso shows that america s divergent approaches to street and corporate crime share common self reinforcing origins during the progressive era scholars and lawmakers championed naturalized theories of human difference to justify instituting punitive measures for poor offenders and regulatory controls for corporate lawbreakers these ideas laid the foundation for dual justice systems criminal justice institutions harshly governing street crime and regulatory institutions governing corporate misconduct since then criminal justice and regulatory institutions have developed in tandem to reinforce politically constructed understandings about who counts as a criminal grasso analyzes the intellectual history policy debates and state and federal institutional reforms that consolidated these ideas along with their racial and class biases into america s legal system

this critical work explores the central dynamic of industrial capitalism the cycle of brilliant innovation catastrophic crisis and the painful process of corporate governance reform coverage includes cycles of crisis and regulation financial bubbles including the global financial crisis and digital disruption finally the current crisis of industry induced climate change that now imperils the world is considered corporate governance cycles of innovation crisis and reform is essential reading for final year undergraduate and postgraduate students of corporate governance international business and business and management studies thomas clarke is emeritus professor of management at the university of technology sydney he is a fellow of the royal society of arts frsa and an international corporate governance expert

financialization has become the go to term for scholars grappling with the growth of finance this handbook offers the first comprehensive survey of the scholarship on financialization connecting finance with changes in politics technology culture society and the economy it takes stock of the diverse avenues of research that comprise financialization studies and the contributions they have made to understanding the changes in contemporary societies driven by the rise of finance the chapters chart the field s evolution from research describing and critiquing the manifestations of financialization towards scholarship that pinpoints the driving forces mechanisms and boundaries of financialization written for researchers and students not only in economics but from across the social sciences and the humanities this book offers a decidedly global and pluri

disciplinary view on financialization for those who are looking to understand the changing face of finance and its consequences

debunking the myths around the current economic belief systems this book reveals how mainstream perspectives work for the benefit of the organised money establishment while causing all manner of destructions inequalities and frauds all conspiring against the common good focused on the realities of organisational systems pearson offers a practical alternative to economic dogma written from a distinctive perspective that combines practitioner and academic expertise this book is structured as a simple model of business strategy and identifies necessary systems change in order to achieve a truly sustainable future

as inequalities widen and the effects of austerity deepen in many countries the wealth of the rich has soared why we can't afford the rich exposes the unjust and dysfunctional mechanisms that allow the top 1 to siphon off wealth produced by others through the control of property and money leading social scientist andrew sayer shows how the rich worldwide have increased their ability to create indebtedness and expand their political influence winner of the 2015 british academy peter townsend prize this important book bursts the myth of the rich as specially talented wealth creators it shows how the rich are threatening the planet by banking on unsustainable growth the paperback includes a new afterword updating developments in the last year and forcefully argues that the crises of economy and climate can only be resolved by radical change to make economies sustainable fair and conducive to well being for all

this book analytically reviews the impact of the global anti money laundering and counter terrorist financing aml cft framework on the compliance trajectory of a number of jurisdictions to this framework the work begins by examining the international financial sector reform and its evolution to inculcate the global framework for aml cft regulations it challenges the resulting uniform aml cft due to its paradoxical impact on the compliance trajectory of african countries and emerging economies acs ees this is done through an examination of the pre conditions for effective regulation and compliance drivers for acs ees that reveals the behavioural impact of the aml cft standards on the bloc of countries through the application of agency theory it explores the relationship between acs ees on the one hand and the international financial institutions that formulate disseminate and facilitate compliance with the global framework for aml cft standards on the other the remaining chapters review empirically the compliance pressures and resulting compliance

trajectory of acs ees with the aml cft standards the final part of the book provides a detailed explanation of the compliance challenges of acs ees and the legitimacy concerns that facilitate this this book offers a new direction on the impact of global aml cft standards on acs ees and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these blocs of countries as such it will be a valuable resource for academics researchers and policy makers working in this area

this book explores neoliberalism a view of the world that puts the market at its centre from the perspective of applied linguistics neoliberalism and applied linguistics argues that while applied linguistics has become more interdisciplinary in orientation it has ignored or downplayed the role of political economy namely the way in which social political and economic factors relate to one another within the context of a capitalist economy the authors take the view that engagement with political economy is central to any fully rounded analysis of language and language related issues in the world today and their collaboration in this volume represents an initial attempt to redress what they perceive to be an imbalance in the field the book begins with a discussion of neoliberalism and an analysis of the ways in which neoliberal ideology impacts on language this is followed by a discussion of how globalization and identity have been conceptualised in applied linguistics in ways which have ignored the political centrality of class a concept which the authors see as integral to their perspective the book concludes with an analysis of the ways in which neoliberal ideology plays out in two key areas of applied linguistics language teaching and language teacher education neoliberalism and applied linguistics is essential reading for advanced undergraduates postgraduates and researchers in applied linguistics

every business discipline has a unique vantage point on value creation and destruction and while specialists have devised solutions leaders rarely use them because of the inherent complexity in trying to understand which parts fit together to help them achieve goals the result is a sort of business tower of babel for practicing leaders and organizational scientists alike leading value creation fills this void as the first book to take organizational science and place it into one coherent and useful model barney integrates vastly different areas of organizational science into his cue see model which builds upon his experience developing global leaders at companies like motorola merck and infosys the model is a way to help leaders better create value and mitigate risk it highlights the flow of value across four perspectives quality cost quantity and cycle time and also looks across levels of analysis for a holistic view on the bottlenecks to value creation as the best focal

point for organizations to succeed barney provides numerous practical examples from pharmaceuticals to barbershops and summarizes six empirical studies demonstrating the model s usefulness

in the depths of the great recession a cancer nurse a car dealership worker and an insurance fraud specialist helped uncover the largest consumer crime in american history a scandal that implicated dozens of major executives on wall street they called it foreclosure fraud millions of families were kicked out of their homes based on false evidence by mortgage companies that had no legal right to foreclose lisa epstein michael redman and lynn szymoniak did not work in government or law enforcement they had no history of anticorporate activism instead they were all foreclosure victims and while struggling with their shame and isolation they committed a revolutionary act closely reading their mortgage documents discovering the deceit behind them and building a movement to expose it fiscal times columnist david dayen recounts how these ordinary floridians challenged the most powerful institutions in america armed only with the truth and for a brief moment they brought the corrupt financial industry to its knees

a sweeping account of financial calamities shows how often we ve been wracked by crises and how quickly we forget why setting up the next one mark zandi chief economist moody s analytics in the 1930s battered and humbled by the great depression the u s financial sector struck a grand bargain with the federal government bankers gained a safety net in exchange for certain curbs on their freedom transparency rules record keeping and antifraud measures and fiduciary responsibilities despite subsequent periodic changes in these regulations the underlying bargain played a major role in preserving the stability of the financial markets as well as the larger economy by the free market era of the 1980s and 90s however wall street argued that rules embodied in new deal era regulations to protect consumers and ultimately taxpayers were no longer needed and government agreed this clear deeply researched history documents the country s financial crises focusing on those of the 1920s the 1980s and the 2000s revealing how the two more recent crises arose from the neglect of this fundamental bargain and how taxpayers have been left with the bill an engaging analysis the section on the s l crisis is excellent choice a fluent if dispiriting study of an economic system that forgives those at the top so long as those at the bottom remain willing to foot the bill kirkus reviews
