outlining important policy requirements for bangladesh to become an upper middle income country the book presents research work conducted during the project changing labor markets

in bangladesh understanding dynamics in relation to economic growth and poverty sponsored by the international development research center idrc canada bangladesh has experienced remarkable economic growth rates over the last decade the country has recently been upgraded from a low income country lic to a lower middle income country lmic as per the world bank s classification system by 2024 the country also aspires to graduate from the united nation s list of least developed countries ldc the 7th five year plan sets an ambitious target of 8 percent growth in gdp by 2020 there are also steep development targets to be achieved under the sustainable development goals sdgs by 2030 all these will require an enormous leap forward from the current level of economic growth rate and sustaining it in the future the situation also calls for considerable structural change in the economy facilitating large scale economic diversification rapid expansion of labor intensive and high productivity sectors both in the farm and nonfarm sectors is thus crucial for bangladesh further this should take place in conjunction with interventions to enhance productivity jobs and incomes in traditional and informal activities where there are large pools of surplus labor given its relevance for bangladesh and applicability to many other developing countries the book offers a unique and pioneering resource for researchers industry watchers as well as policy makers

a brief historical account of the background leading to the publication of the first four editions of the world directory of crystallographers was presented by g boom in his preface to the fourth edition published late in 1971 that edition was produced by traditional typesetting methods from compilations of biographical data prepared by national sub editors the major effort required to produce a directory by manual methods provided the impetus to use computer techniques for the fifth edition the account of the production of the first computer assisted directory was described by s c abrahams in the preface of the fifth edition computer composition which required a machine readable data base offered several major advantages the

choice of typeface and range of characters was flexible corrections and additions to the data base were rapid and once established it was hoped updating for future editions would be simple and inexpensive the data base was put to other union uses such as preparation of mailing labels and formulation of lists of crystallographers with specified common fields of interest the fifth edition of the world directory of crystallographers was published in june of 1977 the sixth in may of 1981 the subject indexes for the fifth and sixth editions were printed in 1978 and 1981 respectively both having a limited distribution
