the new edition of this casebook retains the features that made it a success clear direct text introduces cases and explains important concepts a balance of modern and classic torts cases including vaughan v menlove on standard of care vincent v lake erie transportation co on doctrine of incomplete privilege greenman v yuba power on product liability appealing memorable problems based on actual reported cases that reinforce understanding and build analytical skills contemporary conception and content with the most current thinking on key issues ample background information that places cases and statutes in context varied note materials introductory and transitional notes that encourage close attention to cases and perspective notes that explore a range of viewpoints on tort law a comprehensive teacher s manual that includes sample syllabi and guidance for structuring 4 and 6 credit courses detailed suggestions for presenting and preparing cases and materials for class and answers and analysis to all problems and questions raised in the book the second edition of this popular casebook provides updated material throughout the text illuminates the procedural posture of every case refreshes and updates case selection in a number of chapters including those for standards of care statutory violation multiple sufficient causes foreseeability as a proximate cause test substantial factor as a proximate cause test assumption of risk and defamation supplies reworked notes and introductory sections particularly for res ipsa loquitur duty and professional standard of care basic tort law cases statutes and problems second edition is thoroughly updated while retaining the direct approach that makes it a favorite with students and the proven pedagogy that makes it an essential teaching tool

offering comprehensive coverage that is suitable for one or two semester torts courses basic tort law cases statutes and problems fifth edition s flexible organization accommodates courses that begin either with coverage of intentional torts in chapter 2 or negligence beginning with chapter 3 chapters 9 17 allow teachers to select additional topics that fit best with their curriculum and interests key

features cases edited to moderate length so professors can help students analyze judicial reasoning and treatment of policy implications practice oriented problems in each chapter a new section on the intentional tort of false imprisonment covering the concepts of confinement consent intentionality and the shopkeeper's privilege a new case addressing whether strict liability for abnormally dangerous activities applies to fracking which juxtaposed with another featured case illustrates the differing ways courts have approached the restatement factors a new case discussing joint and several liability offering a straightforward introduction that enhances or may be substituted for a more detailed treatment of this complicated area

products liability and basic tort law is primarily intended as a supplement to whatever casebook is adopted in a law school products liability course law teachers using a case discussion method find that this invariably leaves numerous gaps in the material covered additionally many students need to have the material organized in a narrative format this book is intended to fill in the gaps provide greater depth to the materials normally covered in class and expand upon those materials by presenting subjects that cannot be assigned for class discussion given the inevitable time constraints the book covers all products liability theories express and implied warranty under the uniform commercial code fraudulent negligent and innocent misrepresentation strict liability and of course negligence because the book places products liability law into the larger context of tort law large sections are devoted to basic tort principles of duty actual and proximate cause damages defenses and third party claims for indemnity and contribution as a result the book would also be an excellent supplement to whatever casebook is being used in a traditional first year law school torts class in order to make it more useful to students the author has included for discussion and illustration purposes the classic products and tort cases contained in many of the major products liability and torts casebooks even when those cases could not be discussed in the text he has included many in the notes creating a table of cases that serves as a useful index for students in addition to tracing the development of modern products liability and tort doctrine the book discusses and analyzes many of the currently hot issues in products liability law and tort law not only clarifying the underlying issues but in many instances showing where and why recent lines of cases and developing doctrine fit in or more commonly fail to fit in to traditional legal concepts and traditional understanding about the respective roles of judges juries and legislatures for example the current push to carve out separate spheres for tort and contract law and the resulting incoherence of doctrine is a recurring theme as is the largely political impetus for tort and products liability reform in the courts state legislatures and congress the explanation and criticism of some emerging doctrine should provide practitioners with a valuable basis for structuring a legal argument in an appropriate case

this nutshell provides a comprehensive explanation of the basic principles and rules of american tort law as it exists today this nutshell has been used for over twenty five years by law students law graduates preparing for the bar exam and others seeking an overview of tort topics coverage includes intentional torts and defenses negligence and its defenses strict liability special liability rules for particular activities such as landowners liability products liability employers employees and contractors and others damages the relation between tort and contract immunities survival and wrongful death defamation privacy and misrepresentation the introductory chapter provides background on the definitional dilemma functions goals and justifications of tort law the evolution of tort law and the roles of judges and juries citations to the restatement of torts are included discussions frequently include not only the rule but also its rationale for a clearer understanding and to aid memory

the purpose of this book is to provide a clear and concise guide to the key elements of essential tort law the books in the essential series are intended as a helpful revision aid for the law student primarily at undergraduate level but they will be helpful to any students studying law as part of their

course

this work is intended as a study revision aid for students rather than as a substitute for more detailed treatises it analyzes the law of tort in terms of the issues that are likely to be of interest to examiners and explains these areas in an accessible manner as well as summarizing existing academic opinion the emphasis throughout is on facilitating students understanding of a topic the new edition takes into account recent developments in the law of tort these include the increasing use of the law of negligence in sport further developments when suing public bodies for breach of a duty of care the increasing influence of the european court of human rights on the development of the law of tort changes in the method of calculating personal injuries damages the liability of internet service providers in the law of defamation and use of the qualified privilege defence in libel
