the text offers a comprehensive and unique perspective on disaster risk associated with natural hazards it covers a wide range of topics reflecting the most recent debates but also older and pioneering discussions in the academic field of disaster studies as well as in the policy and practical areas of disaster risk reduction drr this book will be of particular interest to undergraduate students studying geography and environmental studies science it will also be of relevance to students professionals from a wide range of social and physical science disciplines including public health and public policy sociology anthropology political science and geology

political leaders and the news media described the public health catastrophe of covid 19 as a crisis while scholars and public intellectuals portrayed the pandemic as a debacle that would lay bare the inequities and contradictions of an increasingly neoliberal global political economy and usher in an era of progressive transformative change bringing the anthropologies of disaster epidemics and crisis into conversation a revelatory pandemic subjects these hopeful expectations of post pandemic change to social scientific scrutiny across latin america and challenges popular and scholarly assumptions about the causes and outcomes of crisis

this volume will improve our collective understanding of how to fight humanity s persistent and tragic problems with conflicts climate shocks and disasters the authors of this volume will offer deep insights from their research into the nature of evolving

challenges to both global and local sustainability
