multicultural aspects of psychology have received some attention in the literature in the last decade a number of texts currently address these significant concerns for example counseling the culturally

different sue sue 2008 handbook of multicultural counseling poterotto et l 2009 and handbook of multicultural counseling competencies pope davis coleman 2005 in their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity meanwhile other texts have addressed gender issues in psychology handbook of counseling women counseling men with some attention paid to racial ethnic and other diversity concerns clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology however no book currently exists that fully addresses the complexities of race ethnicity and gender together better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities today s world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health we believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted the proposed handbook will focus on timely topics which historically have been under addressed for a number of diverse populations

this handbook addresses treatment planning for children with autism spectrum disorder asd and other neurodevelopmental disabilities ndds using a medical home perspective it examines the medical home model which has been promoted as the standard of care by the american academy of pediatrics since 2002 emphasizing collaboration between patients families and providers to optimize care the handbook addresses treatment planning including the coordination of the care provided by multiple specialists with a clear shared vision for maximizing each child s potential key areas of coverage include elements of treatment planning history of the medical home model documentation and strategies to facilitate communication goals of treatment from the perspectives of the family person served care providers and fiscal and regulatory bodies role of each specialist highlighting the most common conditions experienced by children with asd and other nnd with expectations for assessment and treatment detailed recommendations for making referrals and assisting the child and family in preparing for appointments the handbook of treatment planning for children with autism spectrum

disorder and other neurodevelopmental disabilities is a must have resource for researchers professors and graduate students as well as clinicians therapists and other professionals across such interrelated disciplines as clinical child school and developmental psychology child and adolescent psychiatry social work rehabilitation medicine therapy pediatrics and special education

this text applies cognitive behaviour therapy cbt to use in school settings presenting the first comprehensive integration of theory with specific interventions strategies and techniques designed for work in school chapters are organized around topics such as anxiety depression eating disorders peer aggression and bullying
