do you often daydream and muse on how wonderful it would be for someone to regularly be attending to your needs do you spend a large part of each day helping others to feel better this book may challenge your old patterns of thinking but following brockman s primary directive to take care of yourself first your life will start to transform and your health and well being will begin to shift in a healing direction howard brockman lcsw has written his second book this time emphasizing the importance of self care for the legions of people supporting and taking care of others while there are books that have been written about the challenges to professionals such as social workers nurses and psychologists to becoming burned out brockman s book is written also for the millions of untrained non professionals who are being recruited daily to care for their elderly parents do you fit into either of these categories he describes the many influences that lead to compassion fatigue and becoming infected by the feelings of others this is all about how unconscious empathy can take sensitive caregivers down a never ending spiral to adrenal fatigue and depression in chapter 2 characteristics of

high intensity relaters Brockman describes the primary personality of those helpers whose currency is relationship and who easily fall prey to subtle energetic influences that erode their vital force externally referencing to others needs first tends to be one of their traits Chapter 6 prevent self sabotage is filled with practical ways to stay focused and positive while overcoming old repetitive and negative inner chatter confronting your tyrannizing inner critic is never easy Brockman tells you how he identifies different types of energy drainers that use our energy to enliven themselves and deplete ours he does a good job explaining how to create secure and persistent energetic boundaries with difficult and demanding people and other disruptive environments this is perhaps the most important theme woven throughout the book for the helper personality tends to not know how to say no to requests from others learning how to establish reliable energetic boundaries is incredibly important for protecting against the interpersonal hazard he refers to as psychotoxic contamination that can become cumulative over time and generate serious long term health consequences dark and heavy energy can settle into and invade the body to wreak havoc with one's health and emotional stability the good news is that you can effectively create these boundaries and more importantly learn how to sustain them amidst the ongoing demands of the people you are helping he spends a chapter on how to use specific energy psychology techniques for emergency self care providing fascinating case examples to illustrate how to prevent post traumatic stress from building up to become PTSD Brockman spends some time explaining the importance of optimizing your self care by managing your chi and how plants the natural world and flower essences can support helpers to maintain their inner balance and overall harmony in Chapter 11 making it happen from within you will discover well described and powerful imagery techniques for manifesting positive self care outcomes for yourself Brockman then teaches you how to connect to and work with your inner guides for reliable personal and professional guidance the power of a caregiver's presence is highlighted in the concluding chapter discussing how being the blessing actually creates collective coherence in the immediate caregiver's environment and thus positively affects those who are being cared for for readers who would like to measure and determine the degree of their own present health and well being there are two self assessment checklists for high intensity relaters in Appendix 2 that can also be downloaded from his website dynamicenergetichealing.com

too bad professor skye wasn't around to help professor skye did he mean what he had said that i would be his apprentice probably not but i wished he had i never even got to thank him for helping find my money of course i told my mom and sister about professor skye but they thought this was more of my pretending more of my stories just because i liked to make things up mom sometimes found it hard believing me oh i'd tell the truth all right but then i'd add some make believe to make the truth even better if i took extra long before getting something done it was because the clocks got tired and slowed down to take a rest tell me another story that's a little closer to the truth my mom would say one that i won't have such a hard time believing so i'd take out some of the make believe even though the story was never near as good but not this time professor skye had been real

we evangelicals struggle with mysteries answers are sought meanings defined and theology put in nice neat boxes for clarification or simply to justify our denominational notions as Augustine notes we are talking about God after all why is it surprising that we do not understand if we did understand then it would not be God mysteries remind us that God is bigger than our preconceived ideas about his involvement with those created in his image divine mysteries concise and thoughtful ancient biblical wisdom addresses some of these mysteries in a provocative and succinct manner
