beholders of divine secrets provides a fascinating exploration of the enigmatic hekhalot and merkavah literature the jewish mystical writings of late antiquity vita daphna arbel delves into the unique nature of the mystical teachings experiences revelations and spiritual exegesis presented in this literature while previous scholarship has demonstrated the connection between hekhalot and merkavah mysticism and parallel traditions in rabbinical writings the dead sea scrolls apocalyptic early christian and gnostic sources this work points out additional mythological traditions that resonate in this literature arbel suggests that mythological patterns of expression as well as themes and models rooted in near eastern mythological traditions are employed in a spiritualized fashion to communicate mystical content the possible cultural and social context of the hekhalot and merkavah mysticism and its composers is discussed

this book represents the first wide scale presentation and interpretation of pre kabbalistic jewish mysticism this is the hekhalot or merkavah mysticism the emphasis is on the conceptions of god the angels and man that the texts provide and that are the framework of the judaic world view in late antiquity and the early middle ages this interpretation is based on the major works of this early jewish mysticism hekhalot rabbati the greater palaces hekhalot zutarti the lesser palaces ma'aseh merkavah the working of the chariot merkavah rabbah the great chariot and the third hebrew book of enoch many quotations from this largely unknown body of esoteric literature are included the experience of the mystical heroes of this literature moves between the two poles of the heavenly journey between the ascent of the mystic through the seven palaces to the throne of glory and the adjuration the attempt to invoke god and his angels in order to force them to fulfill man's will both are permeated by magic and the world view of this first stage of jewish mysticism is thus deeply magical the circles which formed it were concerned with nothing less than a radical transformation of the world of normative judaism that for centuries was determined by the rabbis

this book describes the history of jewish mysticism introducing the wide ranging and varied mystic writings known collectively as the hekhalot and the merkavah literature with its description of mystic spiritual elevations and meetings between the mystics and superior beings and even with god explains jewish mysticism's relationships to parallel streams of thought both within and outside judaism

a comprehensive treatment of visionary experience in some of the main texts of jewish mysticism this book reveals the overwhelmingly visual nature of religious experience in jewish spirituality from antiquity through the late middle ages using phenomenological and critical historical tools wolfson examines jewish mystical texts from late antiquity pre kabbalistic sources from the tenth to the twelfth centuries and twelfth and thirteenth century kabbalistic literature his work demonstrates that the sense of sight assumes an epistemic priority in these writings reflecting and building upon those scriptural passages that affirm the visual nature of revelatory experience moreover the author reveals an androcentric eroticism in the scopic mentality of jewish mystics which placed the externalized and representable form the phallus at the center of the visual encounter in the visionary experience as wolfson describes it imagination serves a primary function transmuting sensory data and rational concepts into symbols of those things beyond sense and reason in this view the experience of a vision is inseparable from the process of interpretation fundamentally challenging the conventional distinction between experience and exegesis revelation and interpretation wolfson argues that for the mystics themselves the study of texts

occasioned a visual experience of the divine located in the imagination of the mystical interpreter thus he shows how jewish mystics preserved the invisible transcendence of god without doing away with the visual dimension of belief

a practical guide to the famed medieval book of pre kabbalistic jewish magic freshly interpreted and revealed for the first time with instructions on how to use the spells the sword of moses is one of the earliest jewish magic books which describes a rite for adjuring angels to assist in controlling and wielding the sword of moses for magical purposes the rite involves a short period of purification and then the adjuring of four sets of angels each higher than the last these angels in turn give the magician the power to control the sword through a series of divine names that work as magical spells the spells 137 in all have a wide variety of uses including healing harm love sex exorcising demons divination and more this work was first translated by moses gaster in 1896 but he removed many of the spells making the text unusable for magic the magic of the sword of moses is the first book to show in detail exactly how a magician can use the sword how to do the purification ritual adjure the angels and pronounce and use the divine names for each spell
