the textual heritage of medieval latin is one of the greatest reservoirs of human culture repertories list more than 16 000 authors from about 20 modern countries until now there has been no introduction to this world in its full geographical extension forty contributors fill this gap by adopting a new perspective making available to specialists but also to the interested public new materials and insights the project presents an overview of medieval and post medieval latin literatures as a global phenomenon including both europe and extra european regions it serves as an introduction to medieval latin s complex and multi layered culture whose attraction has been underestimated until now traditional overviews mostly flatten specificities yet in many countries medieval latin literature is still studied with reference to the local history thus the first section presents 20 regional surveys including chapters on authors and works of latin literature in eastern central and northern europe africa the middle east asia and the americas subsequent chapters highlight shared patterns of circulation adaptation and exchange and underline the appeal of medieval intermediality as evidenced in manuscripts maps scientific treatises and iconotexts and its performativity in narrations theatre sermons and music the last section deals with literary interfaces that is motifs or characters that exemplify the double sided or the long term transformations of medieval latin mythologemes in vernacular culture both early modern and modern such as the legends about king arthur faust and hamlet

the worlds of medieval europe updates and revises traditional textbook representations of the middle ages by balancing the conventional focus on political affairs especially those of northern europe with equally detailed attention to medieval society as it developed in the mediterranean the result is a nuanced portrayal of a multifarious western world that was sharply divided between its northern and southern aspects by also integrating the histories of the islamic and byzantine world into the main narrative the text brings new life to the continuum of interaction social cultural and intellectual as well as commercial that existed among all three societies in addition it describes ways in which the medieval latin west attempted to understand the unified and rational structure of the human cosmos which they believed existed beneath the observable diversity and disorder of the world this effort to re create a human ordering of unity through diversity provides an essential key to understanding medieval europe and the ways in which it regarded and reacted to the worlds around it the worlds of medieval europe is an ideal text for undergraduate courses in medieval history western civilization the history of christianity and muslim christian relations it also serves as an excellent supplement for

courses on the history of a specific country in the medieval period the history of medieval art or the history of the european economy
