this is a gripping medical narrative that brings readers into the complex world of newborn intensive care where brilliant but imperfect doctors do all they can to coax life into their tiny injured patients dr adam wolfberg journalist physician specializing in high risk pregnancies and father to a child born weighing under two pounds describes his daughter larissa s precipitous birth at six months which left her tenuously hanging on to life in an incubator ultrasound had diagnosed a devastating hemorrhage in her brain that doctors reasoned would give her only a 50 percent chance of having a normal iq with the knowledge that their daughter could be

severely impaired for life adam and his wife kelly consider whether to take larissa off life support as they make decisions about live saving care in the first hours of a premature infant s life doctors and parents must grapple with profound ethical and scientific questions who should be saved how aggressively should doctors try to salvage the life of a premature baby who may be severely neurologically and physically impaired what will that child s quality of life be like after millions of dollars are spent saving him or her wolfberg explores the fits and starts of physicians government policy makers and lawyers who have struggled over the years to figure out the best way to make these wrenching decisions through larissa s early hospital course and the struggle to decide what is best for her wolfberg examines the limitations of newborn intensive care medicine neuroplasticity and decision making at the beginning of life featuring high profile scientific topics and explanatory medical reporting this is the first book to explore the profound emotional and ethical issues raised by advancing technology that allows us to save the lives of increasingly undeveloped preemies

in this sweeping history of american surgical practice a renowned surgeon describes how surgery in this country has advanced from the comparatively crude practices of pioneering physicians in the colonial era to its current level of preeminence

based on real experiences of those in the trenches this book describes a new delivery system of education designed to allow all students to succeed with the help of teachers who are led by their passion to do what is right for students lee and budisz take the reader step by step through not only what is wrong with the system of education and what must be changed for education but what the school of the future must look like education s goal should be to make sure that students do more than maintain an existence in their adult lives they must flourish living life to the fullest this detailed plan leaves no stone unturned in providing the tools to build a quality education program for all

awards fame wealth bono has it all but the biggest rock star in the world has something more important something that has guided every step of his success faith in god from growing up in ireland during deadly times to performing on the largest stages in the world bono s beliefs have kept him grounded and focused on what truly matters w

western culture no longer has a broad christian understanding in fact much of what american media dishes out is pantheistic or anti religious sociological research indicates that a multitude of beliefs have crept into christian understandings of faith this situation is not new as early as the fifteenth century erasmus asserted that the greatest concern of his time was that christians were most often rank heathens when it came to their orthodoxy it is also apparent that attendance at sunday school vacation bible school and other gatherings has fallen at a great rate the author believes providing christian education in the context of worship is therefore the best opportunity for reaching believers with historical elements of faith a twenty four part lectionary based catechetical curriculum is provided for worship with it congregations can dwell in a sermon series that is surrounded by supportive full bodied worship
