separation individuation struggles in adult life leaving home focuses on the developmental task of separating from parents and siblings for individuals and couples who have not been able to resolve these issues earlier in life sarah fels usher extends mahler s theory and includes the writing of loewald and modell among others stressing the right of adult patients to a separate life she describes the predicament of oedipal victors or victims their introjected feelings of responsibility for their parents and their resultant inability to be truly individuated adults difficulties separating from siblings are also given analytic attention usher s experience treating couples adds a new and powerful dimension to her theory she is optimistic throughout about the therapist s ability to help adult patients resolve the rapprochement sub phase in a satisfying manner an additional crucial question is raised when the author asks if the therapist can allow the patient to terminate treatment has the therapist achieved separation from their own parents or indeed from their analyst exploring the plight of patients of the unseparated analyst usher describes how these generational factors rear their unfortunate heads when it is time to end therapy listening to patients from the perspective of separation individuation is not new what is new is usher s emphasis on how these particular issues are often masked by significant achievement in adult professional life separation individuation struggles in adult life leaving home will be of great importance for psychoanalysts and psychoanalytic psychotherapists working with adults as well as for clinical postgraduate students

shows that if we can learn to understand that every adult step we take away from childhood consciousness leave taking marriage career birth and death is followed by a normal and natural period of mourning and discomfort we have taken the first step toward adult fulfillment and control of our own lives each step we take and understand helps us shed the assumptions rules fantasies and irrationalities established in childhood that can hold us back from a creative adult life

this guide offers a blueprint for co designing and refreshing evidence informed needs based solutions written for service providers organizations and system leaders who support transitions to adult life for young people with disabilities across healthcare community education and social service sectors the digestible content and visually appealing graphic design makes the guide easy to read and navigate allowing you to choose which sections are most relevant to you start with an introduction to using evidence and best practices in transition practice then read about our transformative approach to solution design presented in four key tenets frameworks solution focused approach human centered design and collaboration to see how we put these tenets in action skip ahead to four examples of transitions solutions implemented at canada s largest pediatric rehabilitation hospital holland bloorview kids rehabilitation hospital to action the tenets in your own practice use the evidence informed and practice based supporting materials in

the two appendices each section contains valuable resources tools and tips for your practice

this second edition of the oxford handbook of reciprocal adult development and learning explores how advances in one dimension so often lead to positive changes in the other this is new terrain in psychology and learning implications for research practice and policy emanate from review of empirical literature and theoretical perspectives

loving and grieving are two sides of the same coin we cannot have one without risking the other only by understanding the nature and pattern of loving can we begin to understand the problems of grieving conversely the loss of a loved person can teach us much about the nature of love love and loss the result of a lifetime's work has important implications for the study of attachment and bereavement in this volume colin murray parkes reports his innovative research that enables us to bring together knowledge of childhood attachments and problems of bereavement resulting in a new way of thinking about love bereavement and other losses areas covered include patterns of attachment and grief loss of a parent child or spouse in adult life social isolation and support the book concludes by looking at disorders of attachment and considering bereavement in terms of its implications on love loss and change in a wider context illuminating the structure and focus of thinking about love and loss this book sheds light on a wide range of psychological issues it will be essential reading for professionals working with bereavement as well as graduate students of psychology psychiatry and sociology

rutten's child and adolescent psychiatry is the leading textbook in its field both interdisciplinary and international it provides a coherent appraisal of the current state of the field to help researchers trainees and practicing clinicians in their daily work integrating science and clinical practice it is a comprehensive reference for all aspects of child and adolescent psychiatry new to this full color edition are expanded coverage on classification including the newly revised diagnostic and statistical manual of mental disorders dsm 5 and new chapters on systems neuroscience relationship based treatments resilience global psychiatry and infant mental health from an international team of expert editors and contributors this sixth edition is essential reading for all professionals working and learning in the fields of child and adolescent mental health and developmental psychopathology as well as for clinicians working in primary care and pediatric settings michael rutten has contributed a number of new chapters and a foreword for this edition i greatly welcome this new edition as providing both a continuity with the past and a substantial new look professor sir michael rutten extract from foreword reviews of previous editions this book is by far the best textbook of child adolescent psychiatry written to date dr judith rapoport nih the editors and the authors are to be congratulated for providing us with such a high standard for a textbook on modern child psychiatry i strongly recommend this book to every child psychiatrist who wants a reliable up to date comprehensive informative and

very useful textbook to my mind this is the best book of its kind available today journal of child psychology and psychiatry
