the beginning of the twenty first century has been characterized by the expansion of economic politics and institutional relations using international case studies this book illustrates the

local answer to the challenge of increasing competition the book introduces the idea of endogenous development identifying the theoretical roots and defining its main features it then goes on to indicate how this concept can be used to understand economic dynamics and to show how the concept is relevant in economic analysis and policy implementation in times of globalization after an introduction discussing globalization and development the book is organized in three parts part one defines and discusses the concept of endogenous development part two analyses the processes involved in the mechanics of capital accumulation and local development examining the role of institutions in development processes and the functions of cities in globalization part three argues that a new generation of development policies is beginning to take shape based on the fact that greater competition and globalization increases spatial diversity and stimulates strategic behaviour this work will be of essential interest to academics and policy makers in planning and development and development economics

what can come of a scientific engagement with postmodern philosophy some scientists have claimed that the social sciences and humanities have nothing to contribute except perhaps peripherally to their research dorothée e olkowski shows that the historic link between science and philosophy mathematics itself plays a fundamental role in the development of the worldviews that drive both fields focusing on language its expression of worldview and usage she develops a phenomenological account of human thought and action to explicate the role of philosophy in the sciences olkowski proposes a model of phenomenology both scientific and philosophical that helps make sense of

reality and composes an ethics for dealing with unpredictability in our world

offering an original application of the ancient monastic practice of lectio divina to the humanities this book demonstrates the need for further emphasis on deep reading reflection and contemplation in contemporary university classrooms each chapter provides readers with an historical overview of the four movements of this monastic method lectio reading meditatio interpreting oratio responding and contemplatio experiencing wisdom and suggests ways to incorporate these practices in humanites courses keator demonstrates that the lectio divina method is a viable pedagogical tool to guide students slowly and methodically through literary texts and into a subjective experience of wisdom and meaning
