in this collection of essays authors from different disciplines draw on supply chain analysis and industry studies to elucidate how new information and communications technologies as epitomised by the mobile phone and the internet are affecting the livelihoods of low income communities and the businesses of small entrepreneurs from bangladesh to south africa case studies look at these questions in the context of the world coffee market where online auctions have yielded price premiums for a handful of growers the automobile industry where parts procurement is being rationalised and small suppliers squeezed but a handful of suppliers have found in the internet a tool to link with hitherto inaccessible customers the textile industry where it based procurement and faster product cycles threaten to shut out many developing

country suppliers the general conclusion reached by many of the authors is a sobering one the internet is not a panacea for low productivity and profitability of developing country enterprises which owe more to such problems as weak infrastructure limited managerial know how and poor quality control and excessive market distortions on the other hand neither can an entrepreneur expect to have a fighting chance in the global marketplace without being wired from the oecd website

now in its fourth edition developing business strategies will help you move beyond reactive problem solving and into the development of a strategic vision for your business while retaining all the qualities that made the first three editions so successful this fourth edition of developing business strategies incorporates the latest thinking on such recent topics as economic value analysis total quality management the virtual corporation competitor image and personality exchanging assets and skills the borderless organization and re engineering new material has also been added on quality function deployment brand extension strategies strategic questions strategic vision and opportunism strategic alliances the distinction between pioneering and preemptive strategies and the danger of planning without soul
