the design and functioning of an information system improve to the extent that the system can handle the questions people ask surprisingly however researchers in the cognitive computer and information sciences have not thoroughly examined the multitude of relationships between information systems and questions both question asking and answering the purpose of this book is to

explicitly examine these relationships chapter contributors believe that questions play a central role in the analysis design and use of different kinds of natural or artificial information systems such as human cognition social interaction communication networks and intelligent tutoring systems their efforts show that data structures and representations need to be organized around the questioning mechanisms in order to achieve a quick retrieval of relevant useful information

this book provides guidance to researchers about how to develop interview skills that align with their theoretical assumptions connecting theory and method can be challenging for novice researchers interviewing a guide to theory and practice draws from and extends the author's earlier 2010 book and focuses on three interrelated issues how researchers theorize research interviews examine their subject positions in relation to projects and participants and explore the details of interview interaction to inform practice by developing these understandings of qualitative interview practice kathryn roulston shows how researchers can design and conduct quality research projects that draw on a wide range of interview practices to provide audience members and communities with significant findings concerning social problems

patients often are asked to fill out questionnaires before or after going to the doctor's office or hospital what is the point of these questionnaires why do the questions often seem irrelevant does it matter if patients fill them out or ignore them this book

addresses these questions while also providing historical context about how these questionnaires became so popular these questionnaires which philosopher leah m mcclimans calls patient centered measures have a fascinating history that combines the contemporary emphasis in medical ethics on patient centered care with the contemporary preoccupation with evidence based medicine the idea that medical decisions should be based on empirical evidence patient centered measures sit between these two concerns and thus serve as an excellent example of a medical technology for the twenty first century

the indian state till recently denied information about its functioning and decision making to its citizens ironically using laws made during the colonial period apart from being an anomaly in a democratic set up it created an adverse impact on the quality of governance accountability and transparency it was only in 2005 after a prolonged freedom of information movement that this situation was finally rectified the government enacted the landmark right to information act 2005 and gave to all its citizens the right to access information held by or under the control of public authorities this handbook is meant to serve as a practical guide to the implementation of the act the book begins by locating the act in the context of a global movement for freedom of information foi and discusses the efforts made by international bodies for adoption of foi it also presents a detailed comparative study of foi in five countries the us the uk canada south africa and india in subsequent chapters the book adopting a step by step approach discusses the provisions of the right to information act how citizens should make use of the right to information the comprehensive guidelines for public authorities and their obligations under the act which includes relevant central information commission decisions the role of the public information officers pio who are to be appointed as per the provisions in the act by all public authorities the exemptions allowed under the act and finally the appellate authorities to whom a citizen can appeal in case of unsatisfactory response by the pio
