whilst much scholarly work has been focused on Spain's American colonies much less is known about Spanish colonization of the Pacific as such this book fills an important gap in our knowledge directing attention both to Spain's wider imperial ambitions and the specific situation within the Philippines by structuring the book around the life of Hernando de los Ríos Coronel many overlapping and complex threads are drawn out that cast light upon a diverse range of subjects soldier priest diplomat explorer naval pilot and scientist de los Ríos was a fascinating figure who played a pivotal role in Spanish efforts to establish a thriving colony in the

philippines in 1588 at the age of 29 he was sent to the philippines as a soldier and once there quickly established himself as a pillar of society ultimately becoming a priest over 36 years until his death sometime before the end of january 1624 he shuttled between the philippines and spain in his role as procurator general the sole representative of the philippines both spaniards and indigenes at the spanish court as well as telling the story of an extraordinary individual this book provides a fascinating introduction to the early history of the spanish philippines by touching upon a broad range of topics it also opens up numerous avenues for further research

in the past decades historians have interpreted early modern christian missions not simply as an adjunct to western imperialism but a privileged field for cross cultural encounters placing the jesuit missions into a global phenomenon that emphasizes economic and cultural relations between europe and the east this book analyzes the possibilities and limitations of the religious conversion in the micronesia islands of guåhan or guam and the northern marianas frontiers are not rigid spatial lines separating culturally different groups of people but rather active agents in the transformation of cultures by bringing this local dimension to the fore the book adheres to a process of missionary glocalization which allowed chamorros to enter the international community as members of spain s regional empire and the global communion of the roman catholic church

more than fifty spanish officers served as governors during the 230 years that spain administered the mariana islands from 1668 to 1898 a dozen or so received six year royal appointments made in madrid by the king though the vast majority served three year interim appointments made in manila by the governor general or the audiencia in the nineteenth century as the newly designated province of the mariana islands appointments to the governorship were often made by the captaincy general of the philippines the source materials for this work are found primarily among the holdings of the micronesia area research center spanish documents collection a secondary repository with copies of documentary materials concerning micronesia from institutional collections in various parts of the world though primarily spain mexico and the philippines
