of the nature of things by lucretius this ancient roman epic poem written by the poet and philosopher lucretius explores the teachings of epicurean philosophy the poem examines the nature of the universe the pursuit of happiness and the principles of atomism key aspects of the epic poem of the nature of things epicurean philosophy the poem expounds upon the philosophy of epicurus emphasizing the pursuit of pleasure the rejection of unnecessary desires and the pursuit of a tranquil life nature and the universe lucretius delves into scientific and cosmological ideas of his time offering insights into the nature of the physical world philosophical discourse of the nature of things engages in

philosophical discourse addressing questions about the nature of reality mortality and the pursuit of wisdom lucretius c 99 55 bce was a roman poet and philosopher known for his epic poem de rerum natura of the nature of things his work has had a lasting influence on the development of scientific and philosophical thought in western civilization

rüdiger bittner argues that the aim of thinking about what to do of practical reason is to find not what we ought to do but what it is good to do under the circumstances neither under prudence nor under morality are there things we ought to do there is no warrant for the idea of our being required by natural law or by our rationality to do either what helps us attain our ends or what is right for moral reasons while common moral understanding is committed to there being things we ought to do and to our being guilty and deserving blame if we fail to do them we can lay aside these notions without loss indeed with benefit the volume also explains what it is for something to be good to do under the circumstances and argues for understanding practical reason in these terms what is good to do we find by experience what we go through teaches us what helps and what hinders and helps us figure out what is prudentially useful and what is morally right to do although ultimately this difference itself gives way and morality turns out to be a part of prudence

a comprehensive study of ephemera in twentieth century literature and its relevance to the twenty first century nothing ever really disappears from the internet has become a common warning of the digital age but the twentieth century was filled with ephemera items that were designed to disappear forever and these objects played crucial roles in some of that century s greatest works of literature in the death of things author sarah wasserman delivers the first comprehensive study addressing the role ephemera played in twentieth century fiction and its relevance to contemporary digital culture representing the experience of perpetual change and loss ephemera was central to great works by major novelists like don delillo ralph ellison and marilynne robinson following the lives and deaths of objects wasserman imagines new uses of urban space new forms of visibility for marginalized groups and new conceptions of the marginal itself she also inquires into present day conundrums our fascination with the durable our concerns with the digital and our curiosity about what new fictional narratives have to say about deletion and preservation the death of things offers readers fascinating original angles on how objects shape our world creating an alternate literary history of the twentieth century wasserman delivers an insightful and idiosyncratic journey through objects that were once vital but are now forgotten
