alike widely recognized as a leading expert on french bread the historian steven
laurence kaplan takes readers into aromatic parisian bakeries as he explains
how good bread began to reappear in france in the 1990s following almost a
century of decline in quality kaplan sets the stage for the comeback of good
bread by describing how while bread comprised the bulk of the french diet
during the eighteenth century by the twentieth per capita consumption had
dropped off precipitously this was largely due to social and economic
modernization and the availability of a wider choice of foods but part of the
problem was that the bread did not taste good centuries old artisanal
breadmaking techniques were giving way to conveyor belts that churned out
flavorless fluff in a culture in which bread is sacrosanct bad bread was more
than a gastronomical disappointment it was a threat to france s sense of itself
with a nudge from the millers who make the flour and assistance from the
government bakers rallied reclaiming their reputations as artisans by marketing
their traditionally made loaves as the authentic french bread by the mid 1990s
bread officially designated as bread of the french tradition bread made without
additives or freezing was in demand throughout paris what makes this artisanal
bread good kaplan explains meticulously describing the ideal crust and crumb
interior mouth feel aroma and taste he discusses the breadmaking process in
extraordinary detail from the ingredients to the kneading shaping and baking
and even to the sound bread should make when it comes out of the oven he
offers a system for assessing bread s quality and a language for discussing its
attributes a historian and a connoisseur kaplan does more than tell the story of
the revival of good bread in france he makes the reader see smell taste feel and
even hear why it is so very wonderful that good bread is back
