this is a report on the proposed changes to s4c s funding and governance by the department for culture media and sport dcms following the 2010 comprehensive spending review the committee says a deal over s4c s future was struck in regrettable haste by the bbc and ministers and that more detail should be given on the proposed funding and governance arrangements for the broadcaster nevertheless the committee argues that the proposed deal should result in synergies and cost savings for both broadcasters with studies estimating that s4c is responsible for sustaining over 2 000 jobs in wales and contributing 90 100 million to the welsh economy it is crucial that s4c continues to independently commission its programming from production companies based in wales rather than additional programming being supplied to the channel by the bbc under the government s proposed arrangements s4c s funding will shift from being provided by a direct grant from dcms to funding through the bbc s licence fee while it is essential that the dcms the bbc and s4c work together to achieve potential synergies and efficiencies this must not detract from s4c s independence the dcms and the bbc must guarantee s4c s funding and ensure that s4c receives in full its allocated portion of the licence fee the committee also argue for an enhanced role for the national assembly for wales in holding the s4c authority to account for its performance and for a wider review of the purpose and remit of the broadcaster

although the national assembly of wales has limited law making powers they can be enhanced given parliamentary consent by a new procedure known as legislative competence order in council this sits alongside a procedure where acts of parliament may prescribe matters on which the national assembly may legislate within areas known as fields for which it has responsibility in this report the committee examine the new procedure although it welcomes the chance to be involved in the pre legislative scrutiny of draft orders it is worried about the potential work load and think there could be merit in ad hoc committees set up to examine each proposed legislative competence order there is also a concern that matters added by provisions in bills of a general nature will not have the same degree of scrutiny as legislative competence orders
