this collection of articles is based on presentations and discussions at the 2018 african potentials forum held in accra ghana this forum was a part of the african potentials project which aims to clarify the latent problem solving abilities ways of thinking and institutions that have been created accumulated unified and deployed in the everyday experiences of africans the notion of africa's latent power potential is not related to romanticisation of the traditional knowledge of african society and its institutions as fixed essentialised magic wands this notion also raises objections against political dogmas that seek to smoke out and eliminate thought and values originating in western modernity the keyword of the accra forum was futurity africa's future is laden with possibilities latent power and potential it is bright and hopeful but simultaneously bleak and thought provoking for nascent democracies and economically challenged communities the value of this potential lies not in its static qualities but in how these qualities can be harnessed and translated into beneficial practical outcomes as a concept potential connotes a time to come a futurity that is full of known and unknown possibilities challenges and opportunities

the main objective of this book is to identify the key sources of growth which have played a significant role in africa s recent robust growth as well as its efforts towards economic transformation the book assesses to what extent the existing macroeconomic frameworks among african countries have been streamlined to the countries development priorities in order to achieve long term growth and economic transformation taking into account the diversity of african countries the authors establish the economic linkages between relevant macroeconomic policy variables and the key sources of growth and development among the selected african economies based on both theoretical and empirical underpinnings following this an outline of a macroeconomic framework for africa s long term growth and economic transformation is suggested

this is the second comprehensive report on the state of africa s environment produced in collaboration with the african ministerial conference on the environment amcen this report highlights the central position africa s environment continues to play in sustainable development as well as its potential to achieve progress in the implementation of the millennium development goals the report profiles africa s environmental resources as an asset for the continent s development it highlights the opportunities presented by the region s natural resource base to support the continent s development it also underscores the concept of sustainable livelihoods and the importance of the environmental initiatives in supporting them

this book looks at the first ten years of the african union this is the second in a series of books that will be produced each year from annual conferences held on the multi faceted issue of african liberation the key themes of the book explore ways of improving the effectiveness of the african union fostering unity amongst african countries through entrenchment of pan africanism and building ownership of the african union by the african people and their communities in addition the thoughts of key figures of pan africanism and black emancipation such as sylvester williams and franz fanon are re positioned to even greater contemporary relevance through its promotion of ethiopianism pan africanism and the african renaissance we trust that this book will add new interest and a fresh perspective to how africans move forward together into a post colonial era where policies and actions are determined by the united agency of liberated africans the world over

for millions of africans growth is yet to translate into jobs and better living conditions africa s largely commodity driven growth has not been matched by the much needed structural change that can lead to economic transformation employment and reduced poverty market failures necessitate industrial policy interventions yet in the absence of the right processes and institutions good industrial policies will fail indeed weak institutions and poor policy design have hindered industrial policy this report gives a framework for getting the policy process right to foster industrialization it uses 11 country case studies to assess the critical ingredients for spurring industrialization innovative institutions effective processes and flexible mechanisms and structural transformation

achieving net zero brings together chapters to examine these challenges from a range of perspectives various regions and industries from steps on the journey to net zero and sustainability rhetoric to case studies in angola and mauritius this collection helps facilitate best practice that can be adopted on a global scale

population growth alone dictates that global food supplies must increase by over 50 in coming decades advances in technology offer an array of opportunities to meet this demand but history shows that these can be fully realised only within an enabling policy environment sustaining global food security makes a compelling case that recent technological breakthroughs can move the planet towards a secure and sustainable food supply only if new policies are designed that allow their full expression bob zeigler has brought together a distinguished set of scientists and policy analysts to produce well referenced chapters exploring international policies on genetic resources molecular genetics genetic engineering crop breeding and protection remote sensing the changing landscape of agricultural policies in the world s largest countries and trade those entering the agricultural sciences and those who aspire to influence public policy during their careers will benefit from the insights of this unique set of experiences and perspectives
