is your child getting lost in the system becoming bored losing his or her natural eagerness  
to learn if so it may be time to take charge of your child's education by doing it yourself the  
well trained mind will instruct you step by step on how to give your child an academically  
rigorous comprehensive education from preschool through high school one that will train  
him or her to read to think to understand to be well rounded and curious about learning  
veteran home educators susan wise bauer and jessie wise outline the classical pattern of

education called the trivium which organizes learning around the maturing capacity of the child's mind and comprises three stages the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality using this theory as your model you'll be able to instruct your child whether full time or as a supplement to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects thousands of parents and teachers have already used the detailed book lists and methods described in the well trained mind to create a truly superior education for the children in their care this extensively revised fourth edition contains completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges you do have control over what and how your child learns the well trained mind will give you the tools you'll need to teach your child with confidence and success

appropriate for freshman level prealgebra courses the third edition of prealgebra emphasizes elayn martin gay's unmatched ability to explain key concepts build problem solving skills and relate to students through the use of real life applications that are interesting relevant and practical now in full color the text retains the numerous features that contributed to the success of the previous editions this updated revision includes an increased emphasis on geometry with a new chapter devoted to geometry and measurement along with new coverage of probability additional coverage of percent and rates and an increased emphasis on reading graphs to expand students problem solving opportunities

this text was written to help ease the transition from the numerical skills of arithmetic to the more abstract world of algebra the text concentrates on conceptual understanding in place of rote application of algorithms and encourages students to explore algebraic concepts in an informal way to build a foundation for the subsequent formal study of algebra as

recommended in the nctm standards

the basic handbook for starting homeschooling featuring insight on teaching methods  
homeschool family life and practical advice on teaching
