warfare is the most dangerous threat faced by modern humanity it is also one of the key influences that has shaped the politics economics and society of the modern period but what do we mean by modern war what causes modern wars to begin why do people fight in them why do they end and what have they achieved in this accessible and compelling very short introduction richard english explores the assumptions we make about modern warfare and considers them against the backdrop of their historical reality drawing on the wide literature available including direct accounts of the experience of war english provides an authoritative account of modern war its origins evolution dynamics and current trends about the series the very short introductions series from oxford university press contains hundreds of titles in almost

every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

learning the lessons of modern war uses the study of the recent past to illuminate the future more specifically it examines the lessons of recent wars as a way of understanding continuity and change in the character and conduct of war the volume brings together contributions from a group of well known scholars and practitioners from across the world to examine the conduct of recent wars in iraq afghanistan the middle east south america and asia the book s first section consists of chapters that explore the value of a contemporary approach to history and reflect on the value of learning lessons from the past its second section focuses on the wars in iraq and afghanistan chapters on iraq discuss the lessons of the iraq war the british perspective on the conflict and the war as seen through the lens of saddam hussein s military chapters on afghanistan discuss counterinsurgency operations during the war britain s experience in afghanistan raising and training afghan forces and u s interagency performance the book s third section examines the lessons of wars involving russia israel sri lanka the philippines georgia and colombia it concludes by exploring overarching themes associated with the conduct of recent wars containing a foreword by former national security advisor lieutenant general h r mcmaster learning the lessons of modern war is an indispensable resource for international relations and security studies scholars policymakers and military professionals

how has war shaped modern society and vice versa how has it changed between the introduction of firearms and the invention of the atom bomb how is war waged today the oxford history of modern war examines the techniques technology and theory of war from the military revolution of the seventeenth century to the present day with fascinating thematic chapters covering air and sea warfare combat experience women and war and even opposition to war the expert contributors explore major developments and themes including the growth of modern military professionalism and mass armies the extraordinary achievements of napoleon s armies the role of nationalism in battlegrounds as various as the american civil war and the former yugoslavia colonial wars the concept and reality of total war and guerrilla warfare this new and updated edition with new chapters on people s war and technology and war brings the story into the twenty first century addressing the dilemmas faced by military strategists in confronting international terrorism and in the wake of the invasion of iraq

this book first published in 1977 presents a comprehensive survey of the upheavals experienced in warfare from 1793 to the end of the twentieth century from the napoleonic wars to the advent of total war guerrilla and nuclear warfare it discusses in detail the main aspects of warfare battles weapons and people

the illusion of victory demonstrates that most of the rewards of victory in modern warfare are either exaggerated or false when the ostensible benefits of victory are examined a generation after a war it becomes inescapably evident that the defeated belligerent rarely conforms to the demands and expectations of the victor consequently long term political and military stability is denied to both the victorious power and to the defeated one as a result neither victory nor defeat deter further outbreaks of war this sobering reality is increasingly the case in the twentieth and twenty first centuries ian bickerton persuasively argues that as the rhetoric of victory becomes more hollow all countries must adopt creative new approaches to resolving disputes

guibert was france s foremost military theorist in the eighteenth century he wrote two great treatises but the second is often ignored in favor of the first the general essay on tactics that second treatise the defense of the system of modern war is presented here for the first time in english with extensive annotations by the translator in it guibert explores the beginnings of operational level warfare laying the groundwork for napoleon and his successors

how has war shaped modern society and vice versa how has it changed between the introduction of firearms and the invention of the atom bomb how is war waged today the oxford history of modern war examines the techniques technology and theory of war from the military revolution of the seventeenth century to the present day with fascinating thematic chapters covering air and sea warfare combat experience women and war and even opposition to war the expert contributors explore major developments and themes including the growth of modern military professionalism and mass armies the extraordinary achievements of napoleon s armies the role of nationalism in battlefields as various as the american civil war and the former yugoslavia colonial wars the concept and reality of total war and guerrilla warfare this new and updated edition with new chapters on people s war and technology and war brings the story into the twenty first century addressing the dilemmas faced by military strategists in confronting international terrorism and in the wake of the invasion of iraq

as american and coalition troops fight the first battles of this new century from afghanistan to yemen to the philippines to iraq they do so in ways never before seen until recently information war was but one piece of a puzzle more than a sideshow in war but far less than the sum total of the game today however we find information war revolutionizing combat from top to bottom gone are the advantages of fortified positions nothing is impregnable any longer gone is the reason to create an overwhelming mass of troops now troop concentrations merely present easier targets instead stealth swarming and zapping precision strikes on individuals or equipment are the order of the day based on superior information and lightning fast decision making in many ways modern warfare is information warfare bruce berkowitz s explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed as western

forces wage war against terrorists and their supporters in actions large and small on several continents the new face of war explains how they fight and how they will win or lose there are four key dynamics to the new warfare asymmetric threats in which even the strongest armies may suffer from at least one achilles heel information technology competition in which advantages in computers and communications are crucial the race of decision cycles in which the first opponent to process and react to information effectively is almost certain to win and network organization in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any given opponent at any time america s use of networked elite ground forces in combination with precision guided bombing from manned and unmanned flyers turned afghanistan from a soviet graveyard into a lopsided field of american victory yet we are not invulnerable and the same technology that we used in kuwait in 1991 is now available to anyone with a credit card and access to the internet al qaeda is adept in the new model of war and has searched long and hard for weaknesses in our defenses will we be able to stay ahead of its thinking in iraq saddam s army is in no position to defeat its enemies but could it defend baghdad as the world anxiously considers these and other questions of modern war bruce berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress like positions the new face of war is a crucial guidebook for reading the headlines from across our troubled planet

scholars have struggled to establish a definition of contemporary warfare that recognizes the unique character of conflict since the end of the cold war whether such battles have been fought in the former yugoslavia iraq or afghanistan asymmetrical warfare fourth generation war and new war are the best terms we have to describe them conceptualizing war accurately and effectively is essential for along with trying to define the these conflicts successfully and in order nature of modern warfare western military establishments led by the pentagon must fight to do so they need to fully comprehend events on the ground network centric warfare ncw and effects based operations ebo are two prominent examples of working useful theories yet both fail to capture the complete dynamics of modern military realities the contributors to this volume highlight the inability of current models to create winning strategies hew strachan oxford university david kilcullen caerus associates steven metz united states army war college helen dexter the university of manchester and ian beckett university of northampton among other scholars examine existing concepts and forge new paths in thinking and research their work forces readers to reengage with recent battles they think they know well and reconsider the development and waging of war itself

this book explores the issue of civilian devastation in modern warfare focusing on the complex processes that effectively establish civilians identity in times of war underpinning the physicality of

war's tumult are structural forces that create landscapes of civilian vulnerability such forces operate in four sectors of modern warfare nationalistic ideology state sponsored militaries global media and international institutions each sector promotes its own constructions of civilian identity in relation to militant combatants constructions that prove lethal to the civilian noncombatant who lacks political power and decision making capacity with regards to their own survival civilians and modern war provides a critical overview of the plight of civilians in war examining the political and normative underpinnings of the decisions actions policies and practices of major sectors of war the contributors seek to undermine the tunnelling effect of the militaristic framework regarding the experiences of noncombatants this book will be of much interest to students of war and conflict studies ethics conflict resolution and ir security studies

the riveting close up account of a 1993 firefight in mogadishu somalia black hawk down is one of the most vivid and thorough reports of modern combat ever written

fascinating precisely written indeed brilliant military power is among the most important books ever published on modern warfare

beyond vom kriege furthers carl von clausewitz's theory of war by offering a first hand account of global conflicts and strategies that influenced american national security strategy across six presidential administrations a foreword by ltg h r mcmaster begins this valuable collection of military strategy

a challenge to common assumptions about the future of land warfare ground combat reveals the gritty details of land warfare at the tactical level and challenges today's overly subjective and often inaccurate approaches to characterizing war ben connable's motivation for writing the book is to offer an evidence based approach to examining the future of war connable created and analyzed an original dataset of more than four hundred global ground combat cases showing that there was an evolutionary rather than revolutionary shift in the characteristics of ground combat from world war ii through the early 2020s despite advances in military technology tanks artillery and infantry remain central to how war is waged on land this book asks readers to stop and think about the implications of these findings for force planning and future predictions about military technical revolutions this book sets an essential evidentiary baseline for military officers policymakers and scholars who think about the future of modern war
