nineteenth century outlaw ned kelly is perhaps australia s most famous historical figure ever since he went on the run in 1878 his story has been repeated time and again in every conceivable medium although the value of his memory has been hotly contested and arguably because of this he remains perhaps the main national icon of australia kelly s flamboyant crimes turned him into a popular hero for many australians during his lifetime and far beyond a symbol of freedom anti authoritarianism anti imperialism a robin hood a jesse james a che guevara others have portrayed him as a villain a gangster a terrorist his latest incarnation has been as wikileaks founder and fellow australian cyber outlaw julian assange despite the huge number of representations of kelly from rampant newspaper reporting of the events to the iconic sidney nolan paintings to a movie starring mick jagger to contemporary urban street art this is the first work to take this corpus of material itself as a subject of analysis the fascinating case of this young outlaw provides an important opportunity to further our understanding of the dynamics of cultural memory

the book explains the processes by which the cultural memory of ned kelly was made and has developed over time and how it has related to formations and negotiations of national identity it breaks new ground in memory studies in the first place by showing that cultural memories are formed and develop through tangles of relations what basu terms memory dispositifs in introducing the concept of the memory dispositif this volume brings together and develops the work of foucault deleuze and agamben on the dispositif along with relevant concepts from the field of memory studies such as allochronism colonial aphasia and multidirectionality the memory site especially as developed by ann rigney and jan assmann s figure of memory secondly this work makes important headway in our understanding of the relationships between cultural memory and national identity at a time when matters of identity appear to be more urgent and fraught than ever in doing so it shows that national identities are never purely national but are always sub and transnational the ned kelly memory dispositif has made complex and conflicting contributions to constructions of national identity ever since his outlawry the identities invested in kelly and those invested in the australian nation have in a two way dynamic fused into and strengthened each other so that kelly is in many ways a symbol for the national identity kelly has come to stand for an anti establishment working class subaltern irish inflected national identity at the same time he has come to represent and enforce the whiteness hyper heterosexual masculinity and violence of australianness basu shows that kelly has therefore always functioned in both radical and conservative ways often both at once a turbulent janus faced figure

real story of the hunt for the kelly gang over two long years as gripping as any police procedural it is an account of poorly trained officers unfamiliar with the terrain in pursuit of the most dangerous men in the state by recounting the story from the perspective of the law david dufty gets to the heart of the story for the first time and finds answers to many unresolved questions why was the gang always one step ahead of the police did law abiding citizens really assist the outlaws did the barely literate ned really write the impassioned jerilderie letter did the police really persecute the kelly family who was michael ward and why is he the real hero in the capture of ned kelly
