fire the book provides readers a fresh understanding of the broad implications of white supremacy. Griff Stockley's research adds to an evolving understanding of the Jim Crow South, Arkansas's history, the lawyers who capitalized on this tragedy, and the African American victims. In hindsight, the disaster at Wrightsville could have been predicted immediately after the fire. An unsigned editorial in the Arkansas Democrat noted long-term deterioration, including the wiring of the buildings, after the central high school desegregation crisis. In 1957, the boys' deaths eighteen months later were once again an embarrassment to Arkansas. The fire and its circumstances should have provoked southerners to investigate the realities of their separate but equal institutions. However, white supremacy ruled the investigations, and the grand jury declared the event to be an anomaly.

Brown engages intellectually with thorny issues involving language, school culture, and the more troublesome aspects of today's parent universe. The Washington Post's *To Raise a Boy* is a clear-eyed and sometimes shocking view of the world that we have created for boys and a call for change. Peg Tyre, author of the New York Times bestseller *The Trouble with Boys*, a journalist's searing investigation into how we teach boys to be men and how we can do better. How will I raise my son to be different? This question gripped Washington Post investigative reporter Emma Brown, who was at home nursing her six-week-old son when the MeToo movement erupted. In search of an answer, Brown traveled around the country through towns, urban and rural, affluent and distressed. In the course of her reporting, she interviewed hundreds of people: educators, parents, coaches, researchers, men, and boys to understand the challenges boys face and how to address them. What Brown uncovered was shocking: 23 percent of boys believe men should use violence to get respect; 22 percent of an incoming college freshman class said they had already committed sexual violence; 58 percent of young adults said they've never had a conversation with their parents about respect and care in sexual relationships; men are four times more likely than women to die by suicide; nearly 4 million men experience sexual violence each year. From the reporter who brought Dr. Christine Blasey Ford's story to light, *To Raise a Boy* combines assiduous reporting, cutting-edge scientific research, and boys' powerful testimonials to expose the crisis in young men's emotional and physical health. Emma Brown connects the dots between educators, researchers, policy makers, and mental health professionals in this tour de force that upends everything we thought we knew about boys. Johns Hopkins chair of the department

of population family and reproductive health robert blum says the story of boys has yet to be told and i think it s a really important story urgent and revelatory to raise a boy begins to tell that story
