and all its self serving definitions if you can't beat them turn into them. Ishmael Reed, one of today's top black satirists and the author of *Mumbo Jumbo* and *Japanese by Spring*, provides a spirited introduction to the fertile artistic period now known as the Harlem Renaissance. 1920-1930 gave birth to many of the world renowned masters of black literature and is the model for today's renaissance of black writers.

Over twenty years ago a gentleman in Asbury Park, N.J. began manufacturing and advertising a preparation for the immediate and unfailing straightening of the most stubborn negro hair. This preparation was called *Kink No More*, a name not wholly accurate since users of it were forced to renew the treatment every fortnight. During the intervening years many chemists, professional and amateur, have been seeking the means of making the downtrodden African American resemble as closely as possible his white fellow citizen. The temporarily effective preparations placed on the market have so far proved exceedingly profitable to manufacturers, advertising agencies, negro newspapers, and beauty culturists. While millions of users have registered great satisfaction at the opportunity to rid themselves of kinky hair and grow several shades lighter in color, if only for a brief time, with America's constant reiteration of the superiority of whiteness, the avid search on the part of the black masses for some key to chromatic perfection is easily understood. Now it would seem that science is on the verge of satisfying them.

Harper's informs a diverse body of readers of cultural, business, political, literary, and scientific affairs.

The second book in the acclaimed New York Trilogy is a detective story that becomes a haunting and eerie exploration of identity and deception. It is a story of hidden violence that culminates in an inevitable but unexpectedly shattering climax.
