do you want to learn how to day trade for a living if yes then keep reading day
trading is a form of trading where trades are opened and closed on the same
day enabling the trader to capitalize on marginal gains earned through the day
to day volatility of the market when you are a day trader your goal is to

identify what stocks are likely to shift into favor that day so that you can conduct your trades accordingly generally day traders will buy their stocks in the morning and hold onto those stocks until later in the day when the marginal gains have accumulated enough to earn a significant profit then they will close the trade by selling the stocks before the end of the day so that they are not left holding any stocks after the market closes utilizing the day trading strategy means that your goal is to always be free of stocks in the evening to ensure that you are not exposing yourself to the risk of overnight price changes as with any form of trading you want to minimize your risk by never staying in the market longer than you intended to as doing so could expose you to unforeseen changes that can lead to significant losses this book covers risk and account management how to find stocks for trades tools and platforms transactions borrowings and fiscal costs advanced options trading strategies and so much more so ready to get started click buy now
