decades sales managers coaches and authors talked about closing as the most essential most difficult phase of selling they invented pushy tricks for the final ask from the take delivery close to the now or never close but these tactics often alienated customers leading to fads for the soft close or even abandoning the idea of closing altogether it sounded great in theory but the results were often mixed or poor that left a generation of salespeople wondering how they should think about closing and what strategies would lead to the best possible outcomes anthony iannarino has a different approach geared to the new technological and social realities of our time in the lost art of closing he proves that the final commitment can actually be one of the easiest parts of the sales process if you've set it up properly with other commitments that have to happen long before the close the key is to lead customers through a series of necessary steps designed to prevent a purchase stall iannarino addressed this in a chapter of the only sales guide you'll ever need which he thought would be his only book about selling but he discovered so much hunger for guidance about closing that he's back with a new book full of proven tactics and useful examples the lost art of closing will help you win customer commitment at ten essential points along the purchase journey for instance you'll discover how to compete on value not price by securing a commitment to invest early in the process ask for a commitment to build consensus within the client's organization ensuring that your solution has early buy in from all stakeholders prevent the possibility of the sale falling through at the last minute by proactively securing a commitment to resolve concerns the lost art of closing will forever change the way you think about closing and your clients will appreciate your ability to help them achieve real change and real results
