the church of Jesus Christ of Latter-day Saints adopted the vocal and theatrical traditions of American musical theater as important theological tenets as church membership grew leaders saw how the genre could help define the faith and wove musical theater into many aspects of mormon life Jake Johnson merges the study of belonging in America with scholarship on voice and popular music to explore the surprising yet profound link between two quintessentially American institutions throughout the twentieth and twenty-first centuries mormons gravitated toward musicals as a

common platform for transmitting political and theological ideas johnson sees mormons using musical theater as a medium for theology of voice a religious practice that suggests how vicariously voicing another person can bring one closer to godliness this sounding johnson suggests created new opportunities for living voice and the musical theater tradition provided a site for mormons to negotiate their way into middle class respectability at the same time musical theater became a unique expressive tool of mormon culture

in the early twenty first century it had become a cliché that there was a god gap between a more religious united states and a more secular europe the apparent religious differences between the united states and western europe continue to be a focus of intense and sometimes bitter debate between three of the main schools in the sociology of religion according to the influential secularization thesis secularization has been an integral part of the processes of modernization in the western world since around 1800 for proponents of this thesis the united states appears as an anomaly and they accordingly give considerable attention to explaining why it is different for other sociologists however the apparently high level of religiosity in the usa provides a major argument in their attempts to refute the thesis secularization and religious innovation in the north atlantic world provides a systematic comparison between the religious histories of the united states and western european countries from the eighteenth to the late twentieth century noting parallels as well as divergences examining their causes and especially highlighting change over time this is achieved by a series of themes which seem especially relevant to this agenda and in each case the theme is considered by two scholars the volume examines whether american christians have been more innovative and if so how far this explains the apparent god gap it goes beyond the simple american european binary to ask what is american or european in the christianity of the nineteenth and twentieth centuries and in what ways national or regional differences outweigh these commonalities
