a fascinating introduction to the theory of economic growth that unifies the descriptive and normative strands of growth theory

this history of theories and theorists of economic growth elucidates the economic theory economic history and public policy observations of the renowned scholar w w rostow looking at the economic growth theories of the classic economists up to 1870 rostow compares hume and adam smith malthus and ricardo and j s mill and karl marx he then examines the period 1870 1939 and its economic theorists including schumpeter colin clark kuznets and harrod and surveys the three forms of growth analysis in the postwar era formal models statistical morphology and development theories this authoritative overview also includes an agenda of unresolved problems in growth analysis and a description of the five major tasks statesmen will confront over the next several generations

this volume presents selected papers from the 19th eurasia business and economics society ebes conference held in istanbul its primary emphasis is on showcasing the latest empirical research on social change sustainable development and the management of public and private organizations in emerging economies the respective articles also address more specialized and related topics such as financial risk tolerance international strategic partnerships female labor force participation human capital dynamics and economic integration among others

why are some countries rich and others poor david n weil one of the top researchers in economic growth introduces students to the latest theoretical tools data and insights underlying this pivotal question by showing how empirical data relate to new and old theoretical ideas economic growth provides students with a complete introduction to the discipline and the latest research with its comprehensive and flexible organization economic growth is ideal for a wide array of courses including undergraduate and graduate courses in economic growth economic development macro theory applied econometrics and development studies preview online an interactive tour of economic growth is available here

volume 2 of an analysis of the economic development of sub saharan africa 1960 2000

the study of economic development is inherently grounded in philosophical and ethical assumptions in other words to discuss economic development either at a conceptual level or as a real process necessitates an ethical and philosophical basis the authors of this book believe that islamic economics can serve as such a basis one that emanates from islamic principles and values this book presents a distinctive ethical and philosophical framework one that is grounded in islamic principles and the established literature of islamic economics and finance to analyse and interpret the concept of economic development as well as to propose policy solutions to real world development problems and challenges the book contains theoretical and empirical studies which connect the literature of islamic economics with

economic development while some chapters discuss development at the conceptual philosophical level others examine the real world issues faced by developing countries it proposes institutional constructs as well as concrete public policies to face developmental challenges such as fighting poverty and inequality environmental and social sustainability industrialisation and industrial policy and social services and human capital serving as both an introduction and a comprehensive resource this book illustrates how the concepts and problems of economic development can be examined from an islamic economics perspective and as such will equip researchers and students with a basic understanding of how islamic economics interacts with the issues of economic development

this is an open access book the integration of blue green economy business for sustainability

one of the greatest global challenges is to integrate economic growth and welfare with environmental sustainability the 12th goal under the united nations sustainable development goals sdg 12 addresses this challenge by calling for sustainable consumption and production patterns it is a holistic and responsible approach that entails the production acquisition consumption and disposal of goods and services based on their pro environmental benefits consumers want to act green but they expect businesses to lead the way as such marketers are playing an important role in encouraging green consumerism by reinforcing sustainability in behavioral patterns actionable steps need to be taken to encourage sustainable consumption and align consumers behaviors with their stated preferences achieving economic growth and welfare through green consumerism offers a comprehensive analysis of green consumerism taking into account the diversity of views and debates surrounding the ideology the diversity of topics and multidisciplinary viewpoints offer an insightful overview of the nature of green consumerism its manifestations issues and practices covering topics such as consumption behavior green marketing tools and purchasing behavior this premier reference source is a pivotal resource for business leaders business analysts economists marketers students and educators of higher education researchers and academicians

the book describes the practical process of economic growth both in developed and less developed countries and presents a unified theory of growth from the earliest stages to the most advanced central to the theory is the structural transformation which is associated with the growth process this structural transformation is used to explain the logistic pattern that economic growth has followed in the real world within this logistic pattern growth performance is explained both in terms of supply factors and demand factors and the interaction between them the influence of inflation and income distribution on economic growth is also discussed

following drastic shifts in the spatial organization of goods production increasingly fierce competition now forces firms also to look critically at how to organize the production of services while digitization and advances in information and communication technologies have enabled firms to unbundle service production processes the increased global availability of skilled labour allows for the relocation of ever more of these processes around the world as a result a new geography of services

production takes shape a geography that is defined by new interregional and international divisions of labour and held together by increasingly complex global services production networks this book examines how the reorganisation of services production alters relations between and generates different sets of challenges and opportunities for economic development in the global north and the global south drawing from 11 case studies probing various aspects of services production in different parts of the world the book brings out the remarkable heterogeneity and transformative capacities of services it successively shows how global trade in services creates new interdependencies between services producing and services consuming regions reveals how services help to mitigate the impact of and contribute to recovery from economic crises in the global north and demonstrates how services offshoring fosters economic development and service sector driven modernisation processes in the global south the book s openness to the heterogeneous and dynamic nature of services production enlarges our understanding of which particular services in which spatiotemporal context have the capacity to generate good jobs contribute to productivity and drive economic growth the book stands out from other books in the field in that it combines perspectives on services driven transformations from both the global north and the global south and looks into the role of various services segments based on pioneering empirical research and original data it offers a timely contribution to this growing debate the book provides valuable insights for students scholars and professionals interested in services services offshoring services driven growth and socioeconomic transformations in the global north and south

this volume will be of interest not only to those concerned with the theory of economic growth but also to students of policy since the 1960s copyright libri gmbh all rights reserved

innovative management science practices bridging theory and applied research delves into the dynamic interplay between theoretical frameworks and practical applications in management this insightful anthology compiles groundbreaking research and detailed case studies that highlight innovative practices across various domains including organizational governance strategic decision making marketing strategies financial management human resource development and the integration of advanced technology

one of the main objectives of the unidad popular popular unity govern ment was to attain chile s evolution towards more advanced forms of social organization within the framework of strictly respected democracy this objective which is deeply inherent in every human being and conse quently present under ali conditions and in ali parts of the world is not weakened by temporary defeats or transient retreats history proves this and current events in many parts ofthe world fully confirm it one of the areas in which this struggle for progress takes place most in tensively is economics here c1ashes take place between the forces which work towards social progress and those which oppose it and aim to maintain a sys tem of intolerable priveleges the ideological and material resources available to the forces which attempt to re strain social progress are not small and under given circumstances they overcome the forces by which the majority tries to realize a

better future this is expressed very clearly in the relationships which link the internal dynamics of social development with the great economic and political forces operating at the international level consequently analysis of the social transformation process in such countries as Chile in the context of the political and economic reactions these processes unleash at the international level is of key importance

elites have a disproportionate impact on development outcomes while a country's endowments constitute the deep determinates of growth the trajectory they follow is shaped by the actions of elites but what factors affect whether elites use their influence for individual gain or national welfare to what extent do they see poverty as a problem and are their actions today constrained by institutions and norms established in the past this volume looks at case studies from South Africa to China to seek a better understanding of the dynamics behind how elites decide to engage with economic development approaches include economic modelling social surveys theoretical analysis and program evaluation these different methods explore the relationship between elites and development outcomes from five angles the participation and reaction of elites to institutional creation and change how economic changes affect elite formation and circulation elite perceptions of national welfare the extent to which state capacity is part of elite self identity and how elites interact with non elites

this pandemic does not only affect health aspects but also economic aspects the world today faces a recession resulting from the COVID-19 pandemic Indonesia's economy continues to lead to a recovery although not very significant the current government continues to make various recovery efforts one of the flagship programs includes encouraging and strengthening support for social protection and increasing the purchasing power of households as well as various business sectors including small and medium sized micro enterprises MSMEs this condition urges the world to create new breakthroughs to rise from this adversity academicians and practitioners need to work together to find the necessary solutions and developments surely it will contribute to solve the problems in society by interdisciplinary cooperation this collaboration will create innovations in science and technology especially business and economic field this book includes in depth discussions between academicians and practitioners especially on how to strengthen the regional sectors to be the strong pillars of the country's economy interestingly various methods are used to observe the problems to explore the solutions and to develop the innovation this book will be of interest to students scholars and practitioners of social empowerment governance and other related stakeholders the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives CC BY NC ND 4.0 license funded by State University of Malang

despite increasing reports across the globe on renewable development and maintenance little is known regarding what strategies are required for improved economic growth and prosperity in Africa improving an understanding of the methods for promoting growth through reusable resource development and administration is a vital topic of research to consider in assisting the continent's development the handbook of research on sustainable development and governance strategies for economic growth in Africa provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion
