what is it that we as a nation are missing why given all our skills resources and talents do we settle so often for the ordinary instead of striving to be the best at the heart of

ignited minds is an irresistible premise that people do have the power through hard work to realize their dream of a truly good life kalam s vision document of aspiration and hope motivates us to unleash the dormant energy within india and guide the country to greatness

will robots take over the world when will we meet aliens how are memories stored inside the brain join dr a p j kalam on a fascinating quest to explore the realm of science and technology its extraordinary achievements and its impact on our lives in the days to come co written with srijan pal singh this book features exciting and cutting edge career paths in areas such as robotics aeronautics neurosciences pathology paleontology and material sciences in other words careers that are going to make a difference in the future the result of extensive research this book offers a plethora of ground breaking ideas that will make youngsters think out of the box filled with anecdotes conversations experiments and even inputs from leading scientists reignited is the perfect handbook that is bound to create a spark for science among students youth and science enthusiasts

the astro 2020 decadal report pathways to discovery in astronomy and astrophysics for the 2020s identified the need for a new class of mission for the next decade that fills the gap between a mid sized explorer midex and flagship large mission the report specifically recommends that a cadence of one probe mission per decade with a cost cap of 1.5 billion balances scientific scope with timeliness nasa has followed this recommendation and opened a call for astrophysics probe explorer apex proposals restricted to either a far infrared or an x ray mission due in fall 2023 with a planned launch date in no later than 2032 in response to this call the high energy x ray probe hex p concept has been developed as a partnership between nasa s jet propulsion laboratory jpl the california institute of technology caltech and the nasa goddard space flight center gsfc with international partnership from the italian space agency asi italy the german space agency dlr and the max planck institute for extraterrestrial physics mpe germany hex p is a mission concept that offers sensitive broad band coverage from soft to hard x rays 0.2-80 kev with an exceptional combination of spectral timing and angular capabilities it features two high energy telescopes hets that focus hard x rays and one low energy telescope let that focuses lower energy x rays building upon the heritage of previous successful missions such as xmm newton and nustar with this leap in observational capability hex p will be capable of

addressing fundamental questions about the extreme environments around black holes and neutron stars map the growth of supermassive black holes and quantify the effect they have on their environments hex p will resolve the hard x ray emission from dense regions of our galaxy to understand the high energy source populations and investigate dark matter candidate particles through their decay channel signatures in this frontiers research topic we present a collection of papers which delve into some of the most exciting scientific questions that can be addressed with a mission like hex p the papers have been prepared by members of the hex p collaboration which is organized into four main scientific pillars black hole growth accretion power stellar evolution time domain and multi messenger astronomy the individual papers cover a range of topics including the cosmic x ray background seyfert galaxies compton thick active galaxies and blazars black hole binaries neutron stars magnetars ultraluminous x ray sources and tidal disruption events the physics of the x ray corona x ray populations in nearby galaxies supernova remnants pulsar wind nebulae and nuclear astrophysics galactic pevatrons star clusters superbubbles microquasar jets and gamma ray binaries the galactic center supermassive black spin measurements and dual active galaxies pulsar timing electromagnetic counterparts of gravitational wave sources and transient phenomena the main goal of this research topic is to present detailed modeling and simulations for a range of hex p science cases in order to demonstrate the capabilities of hex p in serving the astrophysics community in the next decade the members of the hex p mission are welcome to present original research papers as well as any other kind of article types that fit their manuscript please have a look at here to choose the appropriate article type to submit to this collection this research topic is organized by the researchers of the hex p mission authors and guest editors belong to the same consortium furthermore dr daniel stern and dr javier garcia are the principal investigator and the project scientist of the mission respectively all manuscripts will be peer reviewed by researchers external to the collaboration

this book focuses on the unifying power of the geometrical language in bringing together concepts from many different areas of physics ranging from classical physics to the theories describing the four fundamental interactions of nature gravitational electromagnetic strong nuclear and weak nuclear the book provides in a single volume a thorough introduction to topology and differential geometry as well as

many applications to both mathematical and physical problems it is aimed as an elementary text and is intended for first year graduate students in addition to the traditional contents of books on special and general relativities this book discusses also some recent advances such as de sitter invariant special relativity teleparallel gravity and their implications in cosmology for those wishing to reach a higher level of understanding

issues in environmental law policy and planning 2011 edition is a scholarlyeditions ebook that delivers timely authoritative and comprehensive information about environmental law policy and planning the editors have built issues in environmental law policy and planning 2011 edition on the vast information databases of scholarlynews you can expect the information about environmental law policy and planning in this ebook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant the content of issues in environmental law policy and planning 2011 edition has been produced by the world s leading scientists engineers analysts research institutions and companies all of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at scholarlyeditions and available exclusively from us you now have a source you can cite with authority confidence and credibility more information is available at scholarlyeditions com
