the arizona department of transportation adot traffic operations center toc opened during  
1995 in phoenix procedures for its operation were developed on an informal basis and  
copies were maintained by each operator in late 1997 the firms of lima associates and pb  
farradyne were retained to research existing programs in three states this was done to  
determine if the procedures at the phoenix toc were adequate and whether additional  
procedures needed to be implemented the team interviewed customers and staff  
members of the toc and reviewed all policies then in place its findings were presented to  
the technical advisory committee tac using this information the tac provided guidelines for  
development of a toc operations manual all toc staff and each tac member reviewed the  
manual draft the end product has resulted in a comprehensive operations manual for daily  
use by the toc staff and in an excellent training tool for new employees

over the past several decades industry university cooperative research centers have
