in the beginning for me winemaking was a romanticized notion of putting grape juice into a barrel and allowing time to perform its magic as you sat on the veranda watching the sunset on a tuscan landscape for some small wineries this notion might still ring true but for the majority of wineries commercially producing quality wines the reality of winemaking is far more complex the persistent evolution of the wine industry demands continual advancements in technology and education to sustain and promote quality winem

ing the sciences of viticulture enology and wine chemistry are becoming more intricate and sophisticated each year wine laboratories have become an integral part of the winemaking process necessitating a knowledgeable staff possessing a multitude of skills science incorporates the tools that new age winemakers are utilizing to produce some of the best wines ever made in this multibillion dollar trade a novice to enology and wine chemistry can find these subjects daunting and intimidating whether you are a home winemaker a new winemaker an enology student or a beginning to intermediate laboratory technician putting all the pieces together can take time as a winemaker friend once told me winemaking is a moving target introduction to wine laboratory practices and procedures was written for the multitude of people entering the wine industry and those that wish to learn about wine chemistry and enology

iceberg semantics is a new framework of boolean semantics for mass nouns and count nouns in which the interpretation of a noun phrase rises up from a generating base and floats with its base on its boolean part set like an iceberg the framework is shown to preserve the attractive features of classical boolean semantics for count nouns the book argues that iceberg semantics forms a much better framework for studying mass nouns than the classical theory does iceberg semantics uses its notion of base to develop a semantic theory of the differences between mass nouns and count nouns and between different types of mass nouns in particular between prototypical mass nouns here called mess mass nouns like water and mud versus object mass nouns here called neat mass nouns like poultry and pottery the book shows in detail how and why neat mass nouns pattern semantically both with mess mass nouns and with count nouns iceberg semantics is a compositional theory and in iceberg semantics the semantic distinctions defined apply to noun phrases of any complexity the book studies in depth the semantics of classifier noun phrases like three glasses of wine and measure noun phrases like three liters of wine the classical wisdom is that classifier interpretations are count recent literature has argued compellingly that measure interpretations are mass the book shows that both connections follow from the basic architecture of iceberg semantics audience scholars and students in linguistics in particular semantics pragmatics computational linguistics and syntax and neighbouring disciplines like logic philosophy of language and
