in this thought provoking book celine maroudas presents an intriguing psychoanalytic reappraisal of middle childhood she re examines both developmental theory and psychodynamic approaches to psychotherapy with this age group exploring in particular the therapeutic power of games and play therapy in a psychoanalytic setting this book offers a comprehensive review of classic

and contemporary views of development in middle childhood from a historical philosophical and psychoanalytic perspective calling into question the classical psychoanalytic concept of the latency period throughout maroudas highlights the emotional turbulence psychic complexity and momentous cognitive and psychosocial development of this critical stage of child development she argues for a shift in psychodynamic thinking on middle childhood from an emphasis on rigidity structure and psychosocial dormancy to a focus on flux change and psychic fragility maroudas goes on to consider why school aged children intuitively prefer playing games with rules and boundaries and looks at how these games might be used as a safe developmentally appropriate analytic technique for expressing and exploring violent and visceral anxieties impulses and passions through moving clinical examples and incisive clinical thinking she shows how these games can serve as a developmentally appropriate framing structure for expressing and exploring the child s inner world alongside the vicissitudes of the transference countertransference matrix offering a recalibration of the technique and language of child analytic treatment to better fit the unique challenges and needs of middle childhood child psychotherapy and the games children play provides psychoanalysts psychotherapists clinical psychologists and educators with vital new insights into this critical stage of child development
