the best book on the importance of presidential transitions to the long term successes of administrations contemporary scholars and practitioners will be especially interested in pfiffner s treatment of the problems that surrounded the clinton administration s troubled start mark j rozell author of executive privilege

in bring back the bureaucrats john j diiulio jr one of america s most respected political scientists and an adviser to presidents in both parties summons the facts and statistics to show us how america s big government works and why reforms that include adding a million more people to the federal workforce by 2035 might help to slow government s growth while improving its performance starting from the underreported reality that the size of the federal workforce hasn t increased since the early 1960s even though the federal budget has skyrocketed the number of federal programs has ballooned bring back the bureaucrats tells us what our elected leaders won t there are not enough federal workers to work for our democracy effectively diiulio reveals that the government in america is leviathan by proxy a grotesque form of debt financed big government that guarantees terrible government washington relies on state and local governments for profit firms and nonprofit organizations to implement federal policies and programs big city mayors defense industry contractors nonprofit executives and other national proxies lobby incessantly for more federal spending this proxy system chokes on chores such as cleaning up toxic waste sites caring for hospitalized veterans collecting taxes handling plutonium and policing more than 100 billion annually in improper payments the lack of competent well trained federal civil servants resulted in the failed federal response to hurricane katrina and the troubled launch of obamacare s health exchanges bring back the bureaucrats is further distinguished by the presence of e j dionne jr and charles murray two of the most astute voices from the political left and right respectively who offer their candid responses to diiulio at the end of the book

the complete guide to chinese thought and culture

most american citizens are quick to criticize federal bureaucracy for its size and inefficiency they assume it has exceeded the intent of our nation s founders yet men like james madison and alexander hamilton knew that good public administrators were essential to good government william richardson here examines the origins legitimacy and limitations of public administration from the perspective of the founders thought he shows that these men especially the authors of the federalist advocated an energetic public administration as an essential component of government and even considered the emergence of a natural aristocracy of virtuous civil servants

the founders would see the fault of today's federal bureaucracy argues richardson not as much in its size as in the character of its members richardson relates the founders belief that the nation should strive to produce public servants committed to developing character traits such as wisdom and moderation that would exemplify the highest ideals of the republic and thus ensure its survival they anticipated some self interest on the part of administrators but believed it would be held in check by public opinion and the political process to test the success of the founders ideal richardson examines both the character of administrators and the role of ethics in forming that character he explores the various plans for educating public leaders throughout american history and looks at how attitudes toward public administration have changed in this century from woodrow wilson's scientific ideal to recent proposals to downsize government among other suggestions richardson advocates reforming existing institutions by emphasizing character democracy bureaucracy and character is an exercise in legitimizing public administration offering important insights into the founders thoughts that can be applied to today's debate over government bureaucracy public administration may be problematic by nature observes richardson but it is crucial to our form of government through his analysis we can see that while bureaucracy and democracy have long had an uneasy relationship neither can be effective unless we fully assess the place and purpose of character in the american regime

examines the conflict surrounding public land management revealing how problematic language in public land laws scarcity of resources and mistrust cloud the debates and offering a range of solutions to help move beyond the dysfunctional status quo management

dansk men engelsksproget og engelsk udgivet bog om finlandisering d v s kunsten at tilpasse sig i udenrigspolitisk henseende til stærkere modstanderlande jf forholdet mellem finland og sovjetunionen begrebet bliver nøjere analyseret i denne lærerige bog med illustrative eksempler fra især danmark og sverige i forholdet til sovjet

As recognized, adventure as without difficulty  
as experience virtually lesson, amusement, as
