creating research infrastructures in the 21st century academic library conceiving funding and building new facilities and staff focuses on research infrastructures bringing together such topics as research and development in libraries dataset management e science grants and grant writing digital scholarship data management library as publisher web archiving and the research lifecycle individual chapters deal with the formation of research development teams emerging scholarly forms and new collaborative approaches to knowledge creation dissemination and preservation managing small databases requiring the same level of support as large databases metadata digital preservation and curation and technical support motivation for such services is provided in a chapter that considers how assessment and data now drive decisions and new services in higher education in general and academic libraries in particular and how statistical data can help to tell stories make decisions and move in new directions conceptualization of the research process also receives attention through the presentation of a research lifecycle in the university environment with the library as an integral partner and leader also a topic that is increasingly important the library as publisher with new institutional repositories tied to journal creation curation and management is examined with a discussion of the workflow and expertise necessary for the library to be successful and responsive to the research needs of its institution and become a leader in providing publishing services to its faculty a related topic archiving in libraries is explored in a chapter that includes discussions on the process of establishing buy in and legal permission the policies and procedures and the technology necessary for its success all of these efforts require funding and chapters are included that address this need finding funding outside of the university for support of the library is now a necessary and vital part of academic libraries guidelines and steps for how to write a grant and be successful at obtaining outside funds a second chapter deals with the problem of developing a grant seeking culture in the library what some of the barriers are to the grant writing process and how to create a reward system for a grant writing culture the volume concludes with two case studies related to implementing research data management services at two liberal arts colleges they demonstrate that the integration of data management services for undergraduate and faculty research in liberal arts colleges is just as important as it is for the large research universities and that new service models should be incorporated so that all librarians and library staff participate in this integration in their duties and responsibilities it is hoped that this volume and the series in general will be a valuable and exciting addition to the discussions and planning surrounding the future directions services and careers in the twenty first century academic library

as the nineteenth century came to an end a number of voices within the british and american magazine industries pushed

back against serialisation as the dominant publication mode experimenting instead with less conventional magazine formats this book explores these formats focusing in particular on the ways in which the periodical press first published the adventures of huckleberry finn the picture of dorian gray and the return of sherlock holmes what led magazines to publish excerpts from a forthcoming book or an entire novel in a single issue or a discontinuous short story series how did these experimental modes affect the act of reading drawing on a range of archival and other primary sources literary experiments in magazine publishing beyond serialization addresses these and other questions

oscar wilde was already one of the best known literary figures in britain when he was persuaded to turn his extraordinary talents to the theatre this is the only fully annotated edition of wilde s major plays which spearheaded the dramatic renaissance of the 1890s and retain their power today box to go above plays under the general editorship of dr michael corder of the university of york the texts of these plays have been newly edited and are presented with modernized spelling and punctuation in addition there is a scholarly introduction and detailed annotation

with the overwhelming amount of new information that bombards us each day it is perhaps difficult to imagine a time when the widespread availability of the printed word was a novelty in early nineteenth century britain print was not novel gutenbergs printing press had been around for nearly four centuries but printed matter was still a rare and relatively expensive luxury all this changed however as publishers began employing new technologies to astounding effect mass producing instructive and educational books and magazines and revolutionizing how knowledge was disseminated to the general public in steam powered knowledge aileen fyfe explores the activities of william chambers and the w r chambers publishing firm during its formative years documenting for the first time how new technologies were integrated into existing business systems chambers was one of the first publishers to abandon traditional skills associated with hand printing instead favoring the latest innovations in printing processes and machinery machine made paper stereotyping and especially printing machines driven by steam power the mid nineteenth century also witnessed dramatic advances in transportation and chambers used proliferating railway networks and steamship routes to speed up communication and distribution as a result his high tech publishing firm became an exemplar of commercial success by 1850 and outlived all of its rivals in the business of cheap instructive print fyfe follows chambers s journey from small time bookseller and self trained hand press printer to wealthy and successful publisher of popular educational books on both sides of the atlantic demonstrating along the way the profound effects of his and his fellow publishers willingness or unwillingness to incorporate these technological innovations into their businesses
