in the early days of the cold war the united states army underwent a fundamental shift in its strategic thinking while world war ii was won on a doctrinal paradigm of combined arms the us army of the 1950s believed that atomic weapons would change how international conflicts were won and lost training officers in atomic warfare was a challenge since there was little real world experience on which to draw initially resistant to atomic weapons the army evolved through school debates among traditionalists tech driven buck rogers visionaries and integrators who unified old and new methods facing classified data gaps army schools sparked cognitive shifts while the maneuver fires inversion redefined warfare by the early 1960s with the vietnam war centered in the minds of us military leadership and the public doctrine and professional military education for atomic warfighting faded as the stark realities of fighting in vietnam settled in in training for atomic warfare lieutenant colonel brad hardy presents a unique view into the history of the us army s strategic shift toward and then away from atomic warfare moving chronologically each of the book s five chapters catalogs a segment of years between 1945 and 1960 showcasing how changes in us defense policy and technology reflected the army s doctrine and education training for atomic warfare draws compelling parallels between the army of the 1950s and the current decade demonstrating how shifts in military methodologies reflect the character of changing global conflicts and international policy

this study has been deliberately restricted to an examination of the tactical organisation and handling of the european teeth arms of the late seventeenth and the first half of the eighteenth centuries that is to say its four main sections deal with the horse the foot the trains of artillery and the engineer services of the period describing their representation organization equipment training and tactical employment the treatment is not restricted to the examination of a single army alone most attention is devoted to the english and french forces which serve as controls but comparisons are drawn with dutch swedish prussian austrian russian and turkish practices on a more limited scale to demonstrate regional differences and peculiarities thus it is hoped that something of an overview of european military practice at the tactical level will emerge introduction

a detailed study of warfare in the early 1700s when marlborough and his commanders developed new tactics for infantry cavalry artillery and siege engineers chandler s knowledge and research are meticulous and his prose is graceful and lean a truly valuable source for the serious student of military history military history
